

Dear Ms woof

I refer to your email dated 29th May 2015 and have noted the plan schedule of Main Modifications.

However they fail to address the main concerns expressed in my earlier correspondence in which I strongly OBJECTED to the proposals on the following grounds : -

1 The proposed development is in an Area of Outstanding Natural Beauty (AONB) which will blight the area for current and future generations.

2. The building of this development on the A49 which is well known accident blackspot is to my mind totally irresponsible. The speed of the traffic on the road is well known as is the number of fatalities as a result of same.

3 The negative effects on the town itself which relies for its very existence on tourism.

4 There exists several sites on the Mynd Industrial site which remain vacant why not use them?

5 Access to the proposed development is not only fraught with danger (see point 2 above) but is also likely to create traffic congestion.

6 Why is this proposal still being considered given that counter proposals from the Church Stretton Town Council have already been submitted to you which will provide the necessary additional houses required.

Kindly ensure that this totally unnecessary proposal is withdrawn

Yours sincerely

Keith Sharp
