-----------------------------------

**2) Do you consider the proposed Main Modification addresses the following issues in relation to the policies concerned?**

	Yes	No
Legally compliant	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Positively prepared	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Justified	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Effective	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Consistent with national policy	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**3) If you have answered 'no' to any of the above please specify your reason for objecting below. You should make clear why the Main Modification is either not legally compliant and/or unsound having regard to whether the modification is not: positively prepared; justified; effective; or, not consistent with national policy. Please see guidance notes for explanation of these terms:**

Whilst the intention of the proposed modification is clear and could be supported, the changes to Policy MD2 will not be effective as, in order for a development proposal to be considered acceptable, it is required to respond to local design aspirations as set out in Community Led Plans, Town or Village Design Statements, Neighbourhood Plans and Place Plans.

Few Villages have design statements, neighbourhood plans or community led plans and the place plans that exist have sketchy and inconsistent design advice. It is highly unlikely that Parish Councils or Community Groups etc will be able to produce appropriate design guidance in the very near future so that developers can be confident of what they are being required to do. Parish Councils and Community Groups are not always welcoming of discussions with developers.

It is suggested, then, that para.MD(1) might be an alternative to the set of criteria in MD(2).

Continue on a separate sheet if necessary

- 4) Please set out what change(s) you consider necessary to make the SAMDev Main Modification legally compliant and/or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**

The matter could be dealt with by the insertion, after the wording suggested in MM7: Amend MD(1), of the word "or," or the words "or where these do not exist or are insufficiently detailed," such that MD(2) would become the default design situation.
