Please use a separate form for each Main Modification you wish to comment on. Only comments relating to a proposed Main Modification will be considered.

1) Please give the Main Modification reference your comment relates to.

Main Modification reference - MM: 15

2) Do you consider the proposed Main Modification addresses the following issues in relation to the policies concerned?

	Yes	No
Legally compliant	<input type="checkbox"/>	<input type="checkbox"/>
Positively prepared	<input type="checkbox"/>	<input type="checkbox"/>
Justified	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Effective	<input type="checkbox"/>	<input type="checkbox"/>
Consistent with national policy	<input type="checkbox"/>	<input checked="" type="checkbox"/>

3) If you have answered 'no' to any of the above please specify your reason for objecting below. You should make clear why the Main Modification is either not legally compliant and/or unsound having regard to whether the modification is not: positively prepared; justified; effective; or, not consistent with national policy. Please see guidance notes for explanation of these terms:

Although the ability to deliver windfall sites within Shropshire settlements is generally supported, these should not be at the expense of the delivery of allocated sites. The modification proposed introduces a positive approach in the consideration of windfall development and its contribution to the housing land supply. However, over-reliance on windfall development for the purpose of supply is not appropriate where there are clearly defined site allocations capable of delivering development and identified infrastructure. The National Planning Policy Framework advises at Paragraphs 47 and 48 that windfall development can contribute an allowance toward housing supply calculations, but principally the housing supply must be provided through 'a supply of specific deliverable sites', such as those allocations proposed through the SAM Dev (Rock Green, Ludlow - LUD017).

Delivery of too much windfall development ahead of allocated sites can take-up market requirements and hinder the delivery of allocated sites in the long-term.

Continue on a separate sheet if necessary

- 4) Please set out what change(s) you consider necessary to make the SAMDev Main Modification legally compliant and/or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**

It is recommended that the introduced wording be amended to make it apparent that delivery of allocated sites is the priority and windfall sites should not prejudice their delivery.

Continue on a separate sheet if necessary.

Please note you should cover all the information, evidence and supporting information necessary to justify the representation and the suggested change. After this stage, further submissions will only be accepted at the request of the Inspector.

You must return this form by 5pm on Monday 13 July 2015.
