Please use a separate form for each Main Modification you wish to comment on. Only comments relating to a proposed Main Modification will be considered.

1) Please give the Main Modification reference your comment relates to.

Main Modification reference - MM: 73

2) Do you consider the proposed Main Modification addresses the following issues in relation to the policies concerned?

	Yes	No
Legally compliant	<input type="checkbox"/>	<input type="checkbox"/>
Positively prepared	<input type="checkbox"/>	<input type="checkbox"/>
Justified	<input type="checkbox"/>	<input type="checkbox"/>
Effective	<input type="checkbox"/>	<input type="checkbox"/>
Consistent with national policy	<input type="checkbox"/>	<input checked="" type="checkbox"/>

3) If you have answered 'no' to any of the above please specify your reason for objecting below. You should make clear why the Main Modification is either not legally compliant and/or unsound having regard to whether the modification is not: positively prepared; justified; effective; or, not consistent with national policy. Please see guidance notes for explanation of these terms:

The MM indicates that "*The Shropshire Historic Environment Record sets out Shropshire's non-designated heritage assets*". This statement is incorrect. The Shropshire HER sets out all the **known** heritage assets of the County, designated and un-designated. It should be stressed that an HER can only include information that has been previously recorded or documented. It is a fact that the entire landscape has the potential to contain either information about the past about which we are currently unaware, or the capacity to contain heritage assets of a non-designated nature. As they are unknown and unassessed, it is further possible that the significance of currently undocumented heritage assets might be such that they would be of a quality to warrant future designation in their own right. This capacity must be reflected accurately within the wording of the SAMDev:

The MM indicates that "*...For assets with archaeological interest, this may include a desk-based assessment and where necessary a field evaluation...*" This does not reflect accurately the language of the NPPF, which states that local planning authorities "should require" such an assessment.

Continue on a separate sheet if necessary

- 4) Please set out what change(s) you consider necessary to make the SAMDev Main Modification legally compliant and/or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**

The statement should be amended to include the word "*known*" within the text to support the principle of assessment and evaluation to examine a site for hitherto undocumented archaeological material, set out within the National Planning Policy Framework (paragraph 128).

This statement must be revised to include the words '*should require*' rather than '*may include*' to accord with national policy and place sufficient emphasis on the need and requirement for adequate archaeological assessment of threatened but previously unexplored sites, or sites where the archaeological significance has not been satisfactorily quantified.

Continue on a separate sheet if necessary.

Please note you should cover all the information, evidence and supporting information necessary to justify the representation and the suggested change. After this stage, further submissions will only be accepted at the request of the Inspector.

You must return this form by 5pm on Monday 13 July 2015.
