**B) Your representations: What do you wish to object to/support?**

Please use a separate form for each Main Modification you wish to comment on. Only comments relating to a proposed Main Modification will be considered.

**1) Please give the Main Modification reference your comment relates to.**

Main Modification reference - MM:103

**2) Do you consider the proposed Main Modification addresses the following issues in relation to the policies concerned?**

	Yes	No
Legally compliant	<input type="checkbox"/>	<input type="checkbox"/>
Positively prepared	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Justified	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Effective	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Consistent with national policy	<input type="checkbox"/>	<input type="checkbox"/>

**3) If you have answered 'no' to any of the above please specify your reason for objecting below. You should make clear why the Main Modification is either not legally compliant and/or unsound having regard to whether the modification is not: positively prepared; justified; effective; or, not consistent with national policy. Please see guidance notes for explanation of these terms:**

The modifications are not Positively prepared, justified or effective.

A topographical survey has already been provided to the council who have passed this to the inspector demonstrating that LYD011 is approximately 2 metres above the level of the open ditch. LYD011 is approximately 0.5 metres above the road level to the east and south. Therefore any blockage in the watercourse will result in localised flooding of the adjoining roads and not LYD011.

The survey provided clearly shows the watercourse running as an open channel to the west of the lane north and south of the crossroads. Therefore the sites LYD007, 008 and 009 do not lie over the water course, which is in open channel rather than culverted as stated in the modification.

The Shropshire SFRA update July 2014 does not identify any sites in Lydbury North at risk of flooding.

Continue on a separate sheet if necessary

- 4) Please set out what change(s) you consider necessary to make the SAMDev Main Modification legally compliant and/or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**

Modification MM103 should be deleted as the statement is incorrect and not supported by the submitted topographical survey.

Continue on a separate sheet if necessary.

Please note you should cover all the information, evidence and supporting information necessary to justify the representation and the suggested change. After this stage, further submissions will only be accepted at the request of the Inspector.

**You must return this form by 5pm on Monday 13 July 2015.**
