Q5: Is your representation in support or objection? Object

Q6: In respect of your representation on the policy, paragraph or section of the policies map do you consider that the SAMdev is: See guidance notes sections 1 and 2 for the meanings of 'legally compliant' and 'sound'.

Legally compliant No
 Sound No

Q7: If your representation considers the SAMDev plan is not sound, please say whether this is because it is: (tick as many as apply) Not positively prepared, Not justified, Not effective, Not consistent with the National Planning Policy Framework

Q8: Please specify your reason for supporting or objecting. If you are objecting, you should make clear why the document is unsound having regard to the issues of 'legal compliance' or whether the document is not positively prepared, justified, effective or not consistent with national policy.

The council has ignored all the assessments other than those commissioned by the developers. There have been no independent expert opinions that support the soundness of the inclusion of OSW004 presented to the public. Public & expert opinions & reports against the plans have been ignored & sidestepped, the council have completely failed to justify the plans in any way relating to any of the above criteria

An encroachment this close to a scheduled monument as important as Stonehenge, flies in the face of public opinion, expert opinion, common sense & the local & national interest. The current view looking over Whittington Road shows the fort in its context & setting. The development would completely block this, thereby causing "significant harm". As does the view of the development looking from the hillfort.

Q9: Explain the changes you think should be made to the SAMdev Plan in order to make it legally compliant or sound. You should explain your suggested revisions to the policy, paragraph or section of the policies map and why this change would make the plan legally compliant or sound. Please be as precise as possible.

OSW004 should be permanently removed from SamDev

SAMdev consultation 2014
