Resolving Concerns & Disputes
Support with complaints & appeals

What is a special educational need?

A child or young person has a **special educational need (SEN)** if they have a **learning difficulty or disability** that requires **special educational provision**.

A **diagnosis is not always needed** to have SEN.

Your child may have SEN if they:

- Have significantly greater difficulty learning than most others their age.
- Have a disability that prevents them from accessing mainstream school facilities.
