Appendix F. Sites proposed for allocation for development within the draft Shropshire Local Plan

Appendix G. Strategic Land Availability Assessment (SLAA)

Appendix H. Affordable Housing Sites Including Those Seeking Homes England (HE) Funding

Appendix I. Windfall Sites

Appendix J. Lapsed Permissions

1. Executive Summary

Introduction

- 1.1. In late 2024, Government introduced an updated National Planning Policy Framework (NPPF) and new 'standard methodology' for assessing local housing need¹. This new 'standard methodology' results in a significant uplift to housing need in many parts of the Country, including Shropshire.
- 1.2. The NPPF specifies Local Planning Authorities are required to identify and annually review their housing land supply.²
- 1.3. The purpose of this process is to assess whether sufficient deliverable sites are available in a Local Planning Authority area to allow for provision of five years' worth of housing (plus an appropriate buffer), based on the identified housing requirement set out in adopted strategic policies, or against local housing need where strategic policies are more than five years old (unless policies have been reviewed and found up-to-date).
- 1.4. This document summarises the assessment for the five year period from **2024/25 to 2028/29**.
- 1.5. It has been undertaken using a cautious and robust methodology which is consistent with national policy and guidance.
- 1.6. **This assessment will be updated at least annually as further information becomes available regarding the delivery of housing sites in Shropshire.**

Housing Land Need and Requirement

- 1.7. The adopted Development Plan for Shropshire consists of the Core Strategy (2011); Site Allocations and Management of Development (SAMDev) Plan (2015); and 'made' formal Neighbourhood Plans.
- 1.8. The strategic policies in the adopted Core Strategy (2011) identify an ambitious housing requirement for Shropshire of 27,500 dwellings between 2006 and 2026. The SAMDev Plan (2015) seeks to deliver the housing requirement identified within the Core Strategy (2011).
- 1.9. As the strategic policies which establish the housing requirement in the adopted Development Plan are more than five years old, this assessment is undertaken in the context of the new 'standard methodology' for assessing local housing need.

¹MHCLG, (2024), NPPG, Housing and Economic Development Needs Assessments (ID2a), Paragraph 004

²MHCLG, (2024), NPPF – Paragraphs 78

- 1.10. This new 'standard methodology' identifies significant increases to local housing need across the Country, including in Shropshire. Specifically in Shropshire:
- a. The previous 'standard methodology' resulted in a local housing need for Shropshire of **1,070 dwellings per annum**.
 - b. The new 'standard methodology' results in a local housing need for Shropshire of **1,994 dwellings per annum**.

Adjustments to Housing Land Need and Requirement

- 1.11. Once the appropriate 'baseline' for assessing the five year housing land supply is identified, national policy and guidance stipulate two specific adjustments which need to be considered.
- 1.12. The first is an adjustment to account for any **past shortfall** in housing completions. National guidance³ specifies that where the 'baseline' for assessing the five year housing land supply is:
- a. The housing requirement in an adopted Development Plan, there is a general expectation that any past under-delivery in the plan period would be addressed within the next five year period, unless there is specific justification for an alternative approach.
 - b. Local housing need calculated using the new 'standard methodology', then past under-delivery is embedded within this assessment and as such no specific adjustment is required.
- 1.13. In this instance, the 'baseline' for assessing the five year housing land supply is local housing need calculated using the new 'standard methodology'. As such, consistent with national guidance, no adjustment is required to account for any past shortfall in housing completions.
- 1.14. The second is an adjustment to allow a **buffer** to create choice and competition in the market for land. The NPPF and accompanying guidance⁴ stipulate that this buffer (consisting of supply brought forward from later in the plan period) should be 5% unless there has been significant under delivery of housing over the previous three years, in which case it should be increased to 20%.
- 1.15. Latest Housing Delivery Test results⁵ indicate in Shropshire delivery has exceeded need. As such, in this instance a 5% buffer, equating to **499 dwellings**, is appropriate.

³ MHCLG, (2024), NPPG, Housing Supply and Delivery (ID68), Paragraph 022

⁴ MHCLG, (2024), NPPG, Housing Supply and Delivery (ID68), Paragraph 013

⁵ MHCLG, (2024), Housing Delivery Test, <https://gov.uk/government/collections/housing-delivery-test>

Housing Land Supply

- 1.16. Shropshire Council has undertaken a cautious and robust assessment of the housing land supply in Shropshire. Only the dwellings on a deliverable site that are themselves considered deliverable within the relevant five year period are included within the five year housing land supply.
- 1.17. In determining whether dwellings on a site are deliverable, Shropshire Council has applied the definition of deliverable provided within the NPPF: "*sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years...*".⁶
- 1.18. The methodology utilised for this assessment is documented within the main report of this statement.
- 1.19. In summary, this assessment concludes that deliverable dwellings in Shropshire are located on:
- a. Sites with extant Planning Permission: 31st March 2024.
 - b. Sites with extant Prior Approval: 31st March 2024.
 - c. Selected sites with 'resolution to grant' Planning Permission: 31st March 2024 which are likely to be deliverable within five years.
 - d. Selected site allocations in the adopted Development Plan likely to be deliverable in five years.
 - e. Selected sites proposed for allocation for development within the draft Shropshire Development Plan likely to be deliverable within five years*.
 - f. Selected sites from the Strategic Land Availability Assessment (SLAA) likely to be deliverable within five years.
 - g. Selected affordable housing sites including Homes England (HE) funded sites which are likely to be deliverable within five years.
 - h. Windfall sites.
- *The Council's approach to the consideration of these sites is to be considered by Cabinet on the 12th February 2025. The number of dwellings considered deliverable within this draft assessment is therefore subject to the outcome of this consideration.*
- 1.20. To add further robustness to the assessment, the Council also apply a very cautious assumption that 10% of deliverable dwellings on sites with Planning Permission; Prior Approval; 'resolution to grant' Planning Permission; allocations within the adopted Development Plan; proposed allocations within the draft Shropshire Local Plan; SLAA Sites; and emerging affordable housing sites will not be delivered in the five year period.

⁶ MHCLG, (2024), NPPF – Annex 2: Glossary

Calculation: Local Housing Need and Housing Land Supply

- 1.21. The new 'standard methodology' for assessing local housing need, applicable from the 12th December 2024, results in a local housing need for Shropshire of 1,994 dwellings per annum.
- 1.22. During the five year period from **2024/25 to 2028/29** this equates to a local housing need of **9,970 dwellings**.
- 1.23. No adjustment is required to account for any **past shortfall** in housing completions, as this is embedded within the new 'standard methodology' for assessing local housing need.
- 1.24. A specific adjustment is required to provide a **buffer** to create choice and competition in the market for land. This buffer is 5%, equating to **499 dwellings**.
- 1.25. Table 1 provides a summary of the calculation of the proposed five year housing land need:

Table 1: Summary of Five Year Housing Land Need

Category		Housing Land Need
(A) 5 Year Requirement:	2024/25	1,994
	2025/26	1,994
	2026/27	1,994
	2027/28	1,994
	2028/29	1,994
	Total	9,970
(B) Under-Delivery:		N/A
(C) Buffer (5%):		499
(D) Total Requirement (A) + (B) + (C):		10,469

- 1.26. In determining whether dwellings on a site are deliverable, Shropshire Council has applied the definition of deliverable provided within the NPPF: *"sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years..."*⁷

⁷ MHCLG, (2024), NPPF – Annex 2: Glossary

1.27. Table 2 provides a summary of the housing land supply in Shropshire considered deliverable within the next five years, at the 1st April 2024:

Table 2: Summary of the Deliverable Housing Land Supply (at 1st April 2024)

Category	Net Dwellings
(A) Dwellings on sites with Planning Permission*	6,094
(B) Dwellings on sites with Prior Approval*	93
(C) Dwellings on selected sites with a 'resolution to grant' Planning Permission*	19
(D) Dwellings on allocated sites estimated to be completed within 5 years*	689
(E) Dwellings on selected proposed allocated sites estimated to be completed within 5 Years*	2,071
(F) Dwellings on SLAA Sites deliverable within 5 years*	133
(G) Dwellings on emerging affordable housing sites deliverable within 5 years *	205
(H) Dwellings on windfall sites**	598
Total: (A) + (B) + (C) + (D) + (E) + (F) + (G) + H	9,902

*A very cautious assumption that 10% of deliverable dwellings on sites: with Planning Permission; with Prior Approval; with 'resolution to grant' Planning Permission; allocated within the adopted Development Plan; proposed to be allocated within the draft Shropshire Local Plan; identified within the SLAA; and identified as an Emerging Affordable Housing Site; will not be delivered in the five year period has been applied to figures in this table.

**Based on historic delivery rates and expected future trends.

Conclusion: Housing Need and Housing Land Supply

1.28. Table 3 brings together the five year housing land need and the results of the assessment of the housing land supply considered deliverable within the next five years in Shropshire, at 1st April 2024.

1.29. This assessment of the housing land requirement and housing land supply has been undertaken using a cautious and robust methodology consistent with national policy and guidance.

**Table 3: Comparison:
Five Year Housing Land Need & Five Year Housing Land Supply**

Total Need:	10,469
Total Supply:	9,902
Over / Under Provision:	-567
Number of Years Supply:	4.73

1.30. Table 3 demonstrates that despite identifying a very significant supply of deliverable housing land, Shropshire Council has concluded that on the basis of the new 'standard methodology' for assessing local housing need, it is unable to demonstrate a five year housing land supply. Specifically the Council considers that a **4.73 years' supply of deliverable housing land** exists in Shropshire.

1.31. Paragraph 11 of the NPPF specifies that in circumstances where the Local Planning Authority cannot demonstrate a five year supply of deliverable housing sites, a 'presumption in favour of sustainable development' should apply. For decision taking, it specifies that this means:

"c) approving development proposals that accord with an up-to-date development plan without delay; or

d) where there are no relevant development plan policies, or the policies which are most important for determining the application are out-of-date, granting permission unless:

i. the application of policies in this Framework that protect areas or assets of particular importance provides a strong reason for refusing the development proposed; or

ii. any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole, having particular regard to key policies for directing development to sustainable locations, making effective use of land, securing well-designed places and providing affordable homes, individually or in combination."

1.32. Please Note: The sites within the various components of the five year housing land supply at 1st April 2024 are included in Appendices A-I of the Shropshire Council: Five Year Housing Land Supply Statement (2024).

2. Introduction

- 2.1. In late 2024, Government introduced an updated National Planning Policy Framework (NPPF) and new 'standard methodology' for assessing local housing need⁸. This new 'standard methodology' results in a significant uplift to housing need in many parts of the Country, including Shropshire.
- 2.2. The NPPF specifies Local Planning Authorities are required to identify and annually review their housing land supply.⁹ The purpose of this process is to assess whether sufficient deliverable sites are available in a Local Planning Authority area to allow for provision of five years' worth of housing (plus an appropriate buffer), based on the identified housing requirement set out in adopted strategic policies, or against local housing need where strategic policies are more than five years old (unless policies have been reviewed and found up-to-date).
- 2.3. This document summarises the assessment for the five year period from **2024/25 to 2028/29**. It has been undertaken using a cautious and robust methodology which is consistent with national policy and guidance. Data within this assessment is to the 31st March 2024, as such the base date for the assessment is 1st April 2024.
- 2.4. The statement comprises six main components, these are the:
 - a. Housing land need and requirement.
 - b. Housing delivery.
 - c. Components of the housing land supply.
 - d. Calculation: housing land need and housing land supply.
 - e. Conclusion: housing land need and housing land supply.
 - f. Schedules of sites included within the housing land supply.
- 2.5. In addition, a breakdown of the **housing commitments and completions by settlement with a residential development guideline in the adopted Development Plan** forms an Annexe to this report.
- 2.6. Within all aspects of this assessment, account has been taken of dwellings recorded as completed at the base date (1st April 2024) and residential units lost through development schemes, to produce a net figure.
- 2.7. *This assessment will be updated at least annually as further information becomes available regarding the delivery of housing sites in Shropshire.*
- 2.8. Please Note: A separate assessment of Gypsy and Traveller accommodation need & requirement is available on the Council website¹⁰.

⁸MHCLG, (2024), NPPG, Housing and Economic Development Needs Assessments (ID2a), Paragraph 004

⁹MHCLG, (2024), NPPF – Paragraphs 78

¹⁰Shropshire Gypsy and Traveller and Travelling Showperson Accommodation Assessment (2019), <https://shropshire.gov.uk/planning-policy/local-planning/local-plan-partial-review-2016-2036/evidence-base/>

3. Housing Land Need and Requirement

Baseline for the Assessment

3.1. The NPPF specifies that when undertaking an assessment of housing land supply, it should be *"against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old."*¹¹

Identification of the Housing Land Requirement

- 3.2. The adopted Development Plan for Shropshire consists of the Core Strategy (2011); Site Allocations and Management of Development (SAMDev) Plan (2015); and 'made' formal Neighbourhood Plans.
- 3.3. The strategic policies in the adopted Core Strategy (2011) set out the Council's vision, strategic objectives and broad spatial strategy to guide future development and growth in Shropshire to 2026. A key aspect of this spatial strategy was the identification of an ambitious housing target for Shropshire of **27,500 dwellings between 2006 and 2026** within Policy CS1.
- 3.4. The SAMDev Plan (2015) seeks to deliver the housing requirement identified within the Core Strategy (2011) (as recognised in Policy MD1), through the identification of deliverable sites for housing development and policies to appraise development proposals.
- 3.5. As the strategic policies which establish the housing requirement in the adopted Development Plan are more than five years old, this assessment is undertaken in the context of local housing need.

Identification of Local Housing Need

- 3.6. In late 2024, Government introduced a new 'standard methodology' for assessing local housing need¹². This new 'standard methodology' differs from the previous iteration in a number of significant ways. In particular:
- a. The 'baseline' is now existing dwelling stock rather than sub-national household projections. As such, the resultant 'need' is no longer linked to forecasts of population or household change.
 - b. An 'adjustment' mechanism in response to affordability ratios (difference between median house prices and median workplace-based earnings) is retained. However, the 'adjustment' is now:
 - i. Based on the five year average affordability ratio, rather than three year average affordability ratio.

¹¹MHCLG, (2024), NPPF – Paragraph 78

¹²MHCLG, (2024), NPPG, Housing and Economic Development Needs Assessments (ID2a), Paragraph 004

- ii. Occurs where ratios of greater than 5:1, rather than 4:1 are experienced.
- iii. For every 1% above the identified ratio, the adjustment is 0.95% rather than 0.25%.

c. All caps have been removed.

3.7. This new 'standard methodology' identifies significant increases to local housing need across the Country, including in Shropshire. Specifically in Shropshire:

- a. The previous 'standard methodology' resulted in a local housing need for Shropshire of **1,070 dwellings per annum**.
- b. The new 'standard methodology' results in a local housing need for Shropshire of **1,994 dwellings per annum**.

4. Housing Delivery

Adjustments to Housing Land Need and Requirement

- 4.1. Once the appropriate 'baseline' for assessing the five year housing land supply is identified, national policy and guidance stipulate two specific adjustments which need to be considered.
- 4.2. The first is an adjustment to account for any **past shortfall** in housing completions. National guidance¹³ specifies that where the 'baseline' for assessing the five year housing land supply is:
 - a. The housing requirement in an adopted Development Plan, there is a general expectation that any past under-delivery in the plan period would be addressed within the next five year period, unless there is specific justification for an alternative approach.
 - b. Local housing need calculated using the new 'standard methodology', then past under-delivery is embedded within this assessment and as such no specific adjustment is required.
- 4.3. The second is an adjustment to create a **buffer** to create choice and competition in the market for land. The NPPF and accompanying guidance¹⁴ stipulate that this buffer (consisting of supply brought forward from later in the plan period) should be 5% unless there has been significant under delivery of housing over the previous three years, in which case it should be increased to 20%.
- 4.4. The necessity and level of 'adjustment' required in response to each of these matters is therefore linked to housing delivery.

Adjustments Required in Response to Past Shortfalls

- 4.5. In this assessment, the 'baseline' for assessing the five year housing land supply is local housing need calculated using the new 'standard methodology'.
- 4.6. As such, consistent with national guidance, no adjustment is required to account for any past shortfall in housing completions.
- 4.7. However, the Council considers understanding performance against the housing requirement within the adopted Development Plan forms useful context when assessing housing land supply and delivery.

¹³ MHCLG, (2024), NPPG, Housing Supply and Delivery (ID68), Paragraph 022

¹⁴ MHCLG, (2024), NPPG, Housing Supply and Delivery (ID68), Paragraph 013

Housing Delivery in the Context of the Housing Requirement in the adopted Development Plan

4.8. Using the annual housing land requirement identified within Core Strategy (2011) Policy CS10 and its supporting text, Shropshire Council has undertaken a review of housing completions within previous years of the plan period. The results of this review are summarised in Table 4.

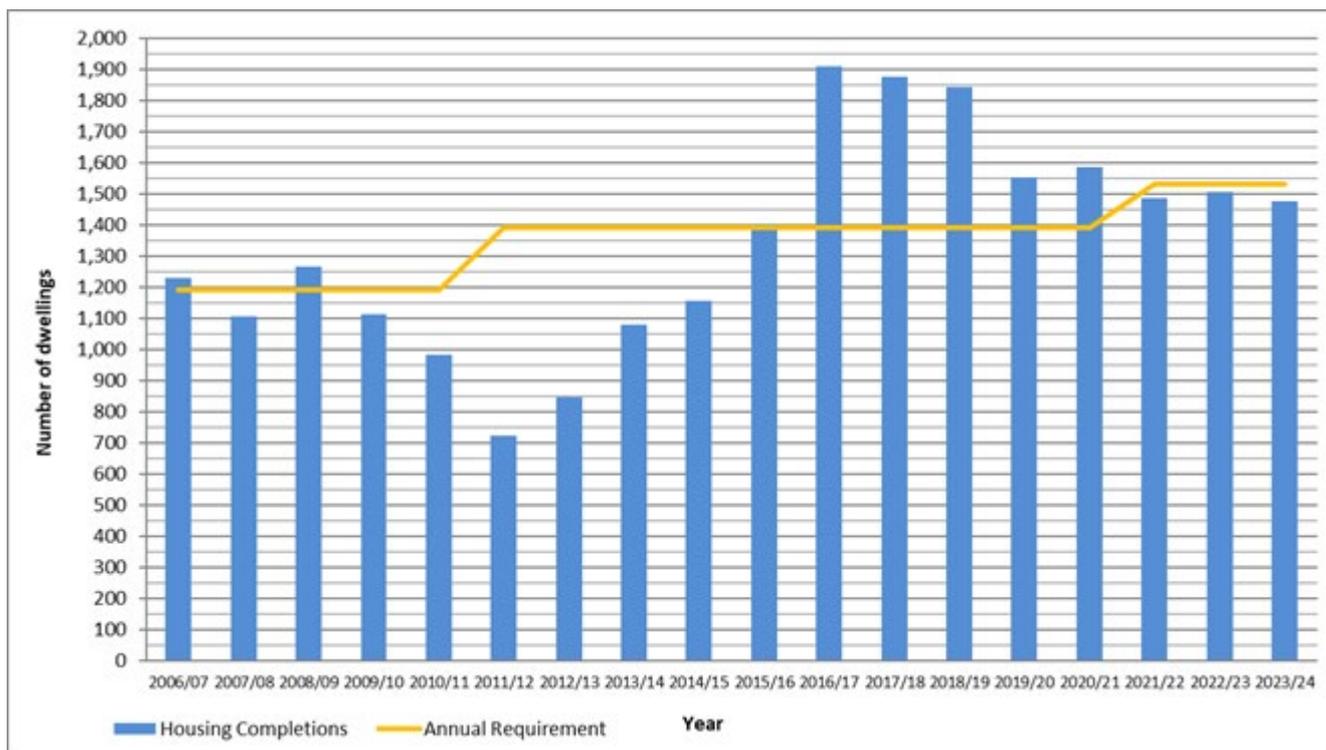

Table 4: Housing Requirement and Housing Completions in Shropshire (2006/07 - 2023/24)

Financial Year	Annual Requirement ¹	Housing Completions	Over provision / shortfall	Cumulative provision
2006/07	1,190	1,228	+38	+38
2007/08	1,190	1,106	-84	-46
2008/09	1,190	1,265	+75	+29
2009/10	1,190	1,112	-78	-49
2010/11	1,190	984	-206	-255
2011/12	1,390	724	-666	-921
2012/13	1,390	847	-543	-1,464
2013/14	1,390	1,079	-311	-1,775
2014/15	1,390	1,155	-235	-2,010
2015/16	1,390	1,402	+12	-1,998
2016/17	1,390	1,910	+520	-1,478
2017/18	1,390	1,876	+486	-992
2018/19	1,390	1,843	+453	-539
2019/20	1,390	1,554	+164	-375
2020/21	1,390	1,586	+196	-179
2021/22	1,530	1,485	-45	-224
2022/23	1,530	1,507	-23	-247
2023/24	1,530	1,477	-53	-300

¹Identified using the housing trajectory from the supporting text of Policy CS10 of the Core Strategy (2011).

4.9. These results have also been depicted graphically in Figure 1 below:

Figure 1: Housing Requirement and Housing Completions in Shropshire (2006/07 - 2023/24)

4.10. Table 4 and Figure 1 demonstrate that housing delivery rates in Shropshire have experienced 'peaks' and 'troughs' over the plan period thus far:

- a. In the early years of the Local Plan period (**2006/07-2008/09**) dwelling completion rates were relatively stable at a level envisaged by the adopted Development Plan.
- b. As a result of the economic downturn, dwelling completion rates decreased year on year (**2008/09 and 2011/12**), resulting in under-delivery against the levels envisaged in the adopted Development Plan.
- c. As the economy emerged from the downturn, dwelling completion rates increased year on year (**2011/12 to 2016/17**), reaching a very significant high and remaining so (**2017/18 and 2018/19**). These very high rates made up for much of the under-delivery from earlier in the adopted Development Plan period. It is considered that this reflected market conditions and the benefits of an up-to-date Development Plan.
- d. Over the last five years (**2019/20-2023/24**), dwelling completion rates have remained high, at around the level envisaged by the adopted Development Plan. It is considered

that these rates were influenced by the benefits of an up-to-date Development Plan, prevailing market conditions and the rising cost of living, the implications of the Covid 19 pandemic, and geopolitical factors.

- 4.11. This 'pattern' is to be expected and is generally reflective of the cycles that occur within the housing market, as there are a range of known and unknown factors that have influenced housing completion rates in Shropshire and/or will influence housing completion rates in the future (over the short, medium and/or long term).
- 4.12. However, it is apparent that the total level of development achieved over the plan period is generally comparable to that necessary to achieve the housing requirement within the adopted Development Plan (around 1.5% consistency).
- 4.13. **This supports the conclusion that the adopted Development Plan for Shropshire has successfully facilitated the development necessary to achieve the overarching vision, objectives and spatial strategy.**

Adjustments Required to Provide a 'Buffer' to the Supply

- 4.14. The NPPF specifies that the extent of the buffer (consisting of sites moved forward from later in the plan period) should be:
"5% to ensure choice and competition in the market for land; or 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply..."¹⁵
- 4.15. The footnote to this paragraph of the NPPF explains that 'significant under delivery' *"will be measured against the Housing Delivery Test"¹⁶* and occurs where this *"indicates that delivery was below 85% of the housing requirement."¹⁶*
- 4.16. Please Note: The NPPF includes a third criterion regarding the housing buffer, however this is only applicable from 1st July 2026.

Housing Delivery Test

- 4.17. Government has published guidance on the housing delivery test, including a measurement rule book, which explains how it is calculated.
- 4.18. In summary, the housing delivery test is *"a percentage measurement of the number of net homes delivered against the number of homes*

¹⁵ MHCLG (2024), NPPF – Paragraph 76

¹⁶ MHCLG (2024), NPPF – Footnote 40

*required, as set out in the relevant strategic policies for the areas covered by the Housing Delivery Test, over a rolling three year period*¹⁷.

4.19. The calculation can therefore be summarised as follows:

$$\text{Housing Delivery Test (\%)} = \frac{\text{Total net homes delivered over three year period}}{\text{Total number of homes required over three year period}}$$

4.20. The guidance then goes on to identify the method for calculating homes delivered and required. In summary:

- a. *"The number of net homes delivered is the National Statistic for net additional dwellings over a rolling 3 year period, with adjustments for net student and net other communal accommodation"*¹⁷.
- b. The number of homes required is the lower of:
 - i. *"the latest adopted housing requirement, including any unmet need from neighbouring authorities which forms part of that adopted housing requirement. This requirement will be the stepped housing requirement (or the annual average requirement where there is no stepped requirement)"*¹⁷, where the housing requirement is less than five years old; **or**
 - ii. *"the minimum annual local housing need figure (and any need from neighbouring authorities which it has been agreed should be planned for, and which has been tested at examination) for that authority calculated with a base date of 1st April each year"*¹⁷.

4.21. The most recent Housing Delivery Test measurement is that for 2023, which was published in December 2024.

4.22. This 2023 measurement concluded that within Shropshire, over the relevant three years (2020/21, 2021/22 and 2022/23), housing delivery exceeded housing required, with delivery at 142%. It also confirmed that as a result there is no consequence in Shropshire¹⁸.

4.23. This calculation undertaken can be summarised as follows:

$$\text{Housing Delivery Test (152\%)} = \frac{\text{Total net homes delivered over three year period (4,427)}}{\text{Total number of homes required over three year period (3,109)}}$$

Housing Buffer Conclusion

4.24. The latest Housing Delivery Test data indicates that within Shropshire, housing completions over the last three years have exceeded housing required. **As such, in this instance a 5% buffer, equating to 499 dwellings, is appropriate.**

5. Housing Land Supply

Introduction

5.1. Shropshire Council has undertaken a cautious and robust assessment of the housing land supply in Shropshire. This part of the statement identifies the methodological approach utilised during this assessment.

Definition of a Dwelling

5.2. In order to undertake an assessment of housing land supply, a definition of a dwelling must be identified. This ensures consistency and robustness of the assessment.

5.3. Shropshire Council considers that the most appropriate definition of a dwelling for the purposes of an assessment of housing land supply is that provided by the Office for National Statistics (ONS), as it is data collected by the ONS that underpins the assessment of Housing Need.

5.4. This definition is also utilised by the Ministry of Housing, Communities and Local Government (MHCLG) - as it is applied within the 'Housing Flow Reconciliation' data return provided by Council's and used within the Housing Delivery Test calculation undertaken by MHCLG.

5.5. Furthermore, the definition is consistent with that applied when determining whether a unit would generate an award under the New Homes Bonus and whether it should be subject to Council Tax.

5.6. This definition of a dwelling is as follows: *"A dwelling is defined (in line with the Census) as a self-contained unit of accommodation. Self-containment is where all the rooms (including kitchen, bathroom and toilet) in a household's accommodation are behind a single door which only that household can use. Non self-contained household spaces at the same address should be counted together as a single dwelling. Therefore a dwelling can consist of one self-contained household space or two or more non-self-contained household spaces at the same address."*¹⁹.

Specialist Housing

5.7. The term 'specialist housing' can be applied to a range of accommodation types intended to meet the needs of those who need assistance (primarily but not necessarily the elderly). The NPPG on housing for older and disabled people explains that there is *"a significant amount of variability in the types of specialist housing for older people"*²⁰. It also

¹⁹ MHCLG, (2024), Housing Flow Reconciliation, https://assets.publishing.service.gov.uk/media/668e8e59ab418ab055592309/MHCLG_HFR_Guidance_-_2023-2024.pdf

²⁰ MHCLG, (2019), NPPG – Housing for Older and Disabled People (ID63), Paragraph 010

provides an indicative list and summary of the categories of specialist housing available. These are:

"Age-restricted general market housing: *This type of housing is generally for people aged 55 and over and the active elderly. It may include some shared amenities such as communal gardens, but does not include support or care services.*

Retirement living or sheltered housing: *This usually consists of purpose-built flats or bungalows with limited communal facilities such as a lounge, laundry room and guest room. It does not generally provide care services, but provides some support to enable residents to live independently. This can include 24 hour on-site assistance (alarm) and a warden or house manager.*

Extra care housing or housing-with-care: *This usually consists of purpose-built or adapted flats or bungalows with a medium to high level of care available if required, through an onsite care agency registered through the Care Quality Commission (CQC). Residents are able to live independently with 24 hour access to support services and staff, and meals are also available. There are often extensive communal areas, such as space to socialise or a wellbeing centre. In some cases, these developments are known as retirement communities or villages - the intention is for residents to benefit from varying levels of care as time progresses.*

Residential care homes and nursing homes: *These have individual rooms within a residential building and provide a high level of care meeting all activities of daily living. They do not usually include support services for independent living. This type of housing can also include dementia care homes.*²¹

- 5.8. When grouped together such specialist housing is often termed 'continuing care retirement communities' or 'retirement villages'.

Specialist Housing: Self-Contained Dwellings

- 5.9. The use-class of specialist housing is often the topic of considerable debate. Specialist housing has in different circumstances been categorised use-class C3, C2, or sui-generis. Ultimately all these forms of specialist housing are considered a form of dwelling/housing, as is apparent throughout the references to it within both NPPF and NPPG (including the NPPG on housing for older and disabled people).
- 5.10. The use-class assigned to specialist housing is therefore not necessarily a reflection of the type of accommodation provided, being strongly influenced by the level of care and community facilities available. Indeed,

²¹ MHCLG, (2019), NPPG – Housing for Older and Disabled People (ID63), Paragraph 010

the NPPG on housing for older and disabled people specifies that *"When determining whether a development for specialist housing for older people falls within C2 (Residential Institutions) or C3 (Dwellinghouse) of the Use Classes Order, consideration could, for example, be given to the level of care and scale of communal facilities provided."*²²

- 5.11. Shropshire Council considers that it is most appropriate to apply the definition of a dwelling utilised by ONS and MHCLG when determining if these units of accommodation are dwellings.
- 5.12. Where the units comply with this definition (are self-contained, with their own living space, bedroom, bathroom and kitchen behind their own front door) then they are considered to represent a dwelling(s) for the purpose of this assessment of housing land supply.
- 5.13. The SAMDev Plan Inspector endorsed the approach taken by Shropshire Council in relation to these units, stating within Paragraph 49 of her report that *"It is reasonable to include care home accommodation within the 5 year housing land supply where it is in the form of self-contained units. Shropshire Council has been very cautious in its consideration of which extra care/care home facilities can be included within the supply, giving consideration to the details of a particular scheme rather than simply the description of development which may be misleading"*²³.

Specialist Housing: Communal Accommodation

- 5.14. Where specialist housing does not constitute a self-contained dwelling, it is considered to represent communal accommodation. In the past, Shropshire Council did not include such communal accommodation within its housing land supply.
- 5.15. However, in 2018 Shropshire Council commenced consideration of such communal accommodation for the elderly within its housing land supply. This is to reflect guidance within the NPPG on Housing Supply and Delivery, which specifies that *"Local planning authorities will need to count housing provided for older people, including residential institutions in Use Class C2, as part of their housing land supply. This contribution is based on the amount of accommodation released in the housing market"*²⁴.
- 5.16. The NPPG on Housing for Older and Disabled People specifies how such accommodation should be accounted for within the housing land supply, stating: *"plan-making authorities will need to count housing provided for older people against their housing requirement. For residential*

²² MHCLG, (2019), NPPG – Housing for Older and Disabled People (ID63), Paragraph 014

²³ PINS (2015), Report on the Examination into Site Allocations and Management of Development (SAMDev) Plan, <https://shropshire.gov.uk/media/8232/samdev-plan-inspectors-report.pdf>

²⁴ MHCLG, (2024), NPPG – Housing Supply and Delivery (ID68), Paragraph 026

institutions, to establish the amount of accommodation released in the housing market, authorities should base calculations on the average number of adults living in households, using the published Census data”²⁵.

- 5.17. Currently the average number of adults living in all households is 1.9²⁶. As such the calculation of the contribution of completed communal accommodation to total housing supply would be as follows *“net increase in bedrooms in other communal accommodation in local authority divided by average number of adults in households in England”²⁶*
- 5.18. For consistency, the NPPG on Housing Supply and Delivery also specifies that *“Communal accommodation, including student accommodation and other communal accommodation, can count towards the Housing Delivery Test...”²⁷.*
- 5.19. Shropshire Council commenced monitoring consents/completions on other communal accommodation for the elderly from the 2018/19 monitoring period. The contribution that such properties make to the housing completions and housing land supply have been calculated consistent with the NPPG.

Student Accommodation

5.20. The NPPG on Housing Supply and Delivery states *“All student accommodation, whether it consists of communal halls of residence or self-contained dwellings, and whether or not it is on campus, can in principle count towards contributing to an authority’s housing land supply based on:*

- *The amount of accommodation that new student housing releases in the wider housing market (by allowing existing properties to return to general residential use); and / or*
- *The extent to which it allows general market housing to remain in such use, rather than being converted for use as student accommodation.*

This will need to be applied to both communal establishments and to multi bedroom self-contained student flats. Several units of purpose-built student accommodation may be needed to replace a house which may have accommodated several students.

Authorities will need to base their calculations on the average number of students living in student only accommodation, using the published census data, and take steps to avoid double-counting. The exception to

²⁵ MHCLG, (2019), NPPG – Housing for Older and Disabled People (ID63), Paragraph 016a

²⁶ MHCLG, (2024), Housing Delivery Test Measurement Rule Book, <https://gov.uk/government/publications/housing-delivery-test-measurement-rule-book/housing-delivery-test-measurement-rule-book>

²⁷ MHCLG, (2024), NPPG – Housing Supply and Delivery (ID68), Paragraph 033

*this approach is studio flats designed for students, graduates or young professionals, which can be counted on a one for one basis. A studio flat is a one-room apartment with kitchen facilities and a separate bathroom that fully functions as an independent dwelling*²⁸.

Currently the average number of students in student only households is 2.4²⁹. As such the calculation of the contribution of completed communal accommodation to total housing supply would be as follows: "net increase in bedrooms in student communal accommodation in local authority divided by average number of students in student only households in England"²⁹

5.21. For consistency, the NPPG on Housing Supply and Delivery also specifies that "*Communal accommodation, including student accommodation and other communal accommodation, can count towards the Housing Delivery Test...*"³⁰.

5.22. This approach has been applied to student accommodation within the housing land supply from the 2017/18 monitoring period. The contribution that such properties make to the housing completions and housing land supply have been calculated consistent with the NPPG.

Annexes

5.23. In conformity with the ONS definition of a dwelling (also utilised by MHCLG), Shropshire Council considers that annexes represent self-contained dwellings where they:

- a. Are self-contained (have their own living space, bedroom, bathroom and kitchen); and
- b. Have their own point of access; and
- c. Are not subject to conditions on occupancy, that restrict a self-contained household from being formed within them³¹.

5.24. Consequently, where annexes comply with these criteria, they will be considered as part of the review of the housing land supply.

Deliverable Sites

5.25. When reviewing the housing land supply, Shropshire Council is required to undertake an assessment of dwellings on sites to determine if they are deliverable, developable or not currently developable for housing. This

²⁸ MHCLG, (2024), NPPG – Housing Supply and Delivery (ID68), Paragraph 025

²⁹ MHCLG, (2024), Housing Delivery Test Measurement Rule Book, <https://gov.uk/government/publications/housing-delivery-test-measurement-rule-book/housing-delivery-test-measurement-rule-book>

³⁰ MHCLG, (2024), NPPG – Housing Supply and Delivery (ID68), Paragraph 033

³¹ MHCLG, (2024), Housing Flow Reconciliation, https://assets.publishing.service.gov.uk/media/668e8e59ab418ab055592309/MHCLG_HFR_Guidance_-_2023-2024.pdf

then informs consideration of when the site and the dwellings upon it are likely to come forward for development.

- 5.26. Sites to be included within the first five years of the housing land supply should be considered deliverable. The NPPF states that *"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:*
- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
 - b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years"*³².
- 5.27. It is apparent that this is not intended to be an exhaustive list of the types of site which can be considered deliverable and that sites do not need to involve non-major development and have Planning Permission or have detailed Planning Permission to be included within the first five years of the housing land supply. Rather the requirement is that there is clear evidence, through assessment of a site, that concludes that it is **available now**; offers a **suitable location for development now**; and is **achievable** with a realistic prospect that **housing will be delivered** within five years.
- 5.28. For the purposes of this assessment deliverable dwellings are on:
- a. Sites with extant Planning Permission at the 31st March 2024.
 - b. Sites with an extant and positive Prior Approval decision at the 31st March 2024.
 - c. Selected sites with a resolution to grant Planning Permission as at the 31st March 2024 which are likely to be deliverable within five years.
 - d. Selected site allocations within the adopted Development Plan which are likely to be deliverable within five years.
 - e. Selected sites proposed for allocation for development within the draft Shropshire Local Plan which are likely to be deliverable within five years.

³²MHCLG, (2024), NPPF – Annex 2: Glossary

- f. Selected sites from the Strategic Land Availability Assessment (SLAA) which are likely to be deliverable within five years.
- g. Selected affordable housing sites including Homes England (HE) funded sites which are likely to be deliverable within five years.
- h. Windfall sites.

Build Rates and Lead-in Times

5.29. When reviewing housing land supply, Shropshire Council must make assumptions about lead-in times and build rates on development sites.

Lead-in Times

- 5.30. Lead-in time is the period before construction starts on a site. Inevitably a range of factors influence lead-in times. To ensure consistency in its assessment, Shropshire Council has identified **very cautious standard assumptions on lead-in times**, which reflect the broad range of residential development that occurs in Shropshire, the different mechanisms for securing consent for development, and the diversity of our settlements and associated development opportunities.
- 5.31. Residential development schemes that occur in Shropshire include a very significant volume of small scale residential developments, a significant volume of moderate and larger scale residential development schemes, a substantial number of residential-led mixed use developments, a number of sustainable urban extensions to our larger Strategic, Principal and Key Centres, and new strategic settlements (such as at the Former Ironbridge Power Station).
- 5.32. Routes to securing consent for residential development include via permitted development rights (often with prior approval); full planning permission; outline planning permission and subsequent reserved matters permissions; and hybrid planning permission (where parts of the development are approved in full and others in outline with a requirement for subsequent reserved matters permissions). In addition, many planning applications are subject to S106 Legal Agreements, with associated timescales for their negotiation and sign-off.
- 5.33. Further variety is created as planning applications can be subject to a Planning Performance Agreement (PPA) which establishes an agreed framework and timescale for their consideration. Also, many planning applications benefit from pre-application discussions, which can enhance the quality of a proposal and reduce timescales for their determination. Information on the Council's pre-application services is available on the Council website at: <https://next.shropshire.gov.uk/planning-and-development/planning/applications/pre-application-advice/>

- 5.34. The diversity of our settlements is not just about scale, but also their character, appearance, heritage and communities. Development opportunities within our settlements are influenced by these characteristics.
- 5.35. Responding to the variety of residential development that occurs, the different mechanisms available to secure consent for development, and the diversity of our settlements and development opportunities, in identifying standard assumptions for lead-in times, the Council had identified a realistic but cautious time range for each of the key stages.
- 5.36. Table 6 summarises the Council’s standard lead-in time assumptions:

Table 5: 'Standard' Lead-in Times in Shropshire

Action	Months as a range		
	Start	End	Range
Preparation of Application	1	6	8-21
Local Planning Authority Consideration of Application	2	3	
Completion of S.106 Legal Agreement	1	6	
Preparation of Reserved Matters Application (if applicable) & Discharging of Conditions	2	3	
Local Planning Authority Consideration of Reserved Matters Application(s) (if applicable)	2	3	
Site Mobilisation	2	6	2-6
Infrastructure Implementation			
Build First Dwelling			
Totals:	10	27	10-27

- 5.37. As such, the Council’s standard assumptions for lead-in time allow for **between 10 and 27 months from preparation of a planning application for a development to the completion of the first dwelling on a site**. It is considered that the assumptions made by the Council on lead-in times are both realistic and locally responsive.
- 5.38. Development occurring on larger sites in Shropshire is more than capable of commencement within six months following the grant of approval, with examples provided below. This is not surprising considering many larger sites are Development Plan allocations and benefit from significant amounts of design work, site marketing and discussions with the Council prior to the submission of an application.
- 5.39. For instance:
- a. 13/03055/FUL Land at Aston Street, Shifnal (115 dwellings): Decision notice issued on 24th March 2014. Commencement on 7th April 2014. Development completed during 2017/18.

- b. 13/00893/FUL Phase 1 of the Shrewsbury South SUE (291 dwellings): Decision notice issued on 9th May 2014. Commencement on 27th May 2014. Development completed during 2022/23.
- c. 14/01264/FUL Mount Farm, Whitchurch (100 dwellings): Decision notice issued on 23rd December 2014. Commencement on 23rd March 2015. Development completed during 2018/19.
- d. 14/05343/FUL Land West of Ellesmere Road, Shrewsbury (147 dwellings): Decision notice issued on 26th March 2015. Commencement on 15th June 2015. Development completed during 2018/19.
- e. 16/02618/FUL Phase 3 of the Shrewsbury South SUE (159 dwellings): Decision notice issued on 19th December 2016. Commencement on 16th January 2017. Development completed during 2019/20.
- f. 16/05474/FUL Land East of A53, Shrewsbury Road, Shawbury (50 dwellings): Decision notice issued 4th October 2017. Commencement on 21st October 2017. Development completed during 2019/20.
- g. 17/05554/FUL Land to the North of Hall Bank, Pontesbury (86 dwellings): Decision notice issued 10th September 2018. Commencement on 17th September 2018. Development completed during 2021/22.
- h. 21/01748/FUL Land to North of Oteley Road, Shrewsbury (66 bedroom care home): Decision notice issued 9th August 2021. Commencement on 6th October 2021. Development completed during 2022/23.
- i. 20/01957/FUL Land at Churncote, Off Welshpool Road, Shrewsbury (340 dwellings): Decision notice issued 1st March 2022. Commencement on 3rd March 2022. Development ongoing.
- j. 22/03543/FUL Land to the South of Welshpool Road, Shrewsbury (106 dwellings): Decision notice issued on the 7th July 2023. Commencement on the 30th October 2023. Development ongoing.
- k. 23/03843/FUL Land at William Farr House, Shrewsbury (76 dwellings): Decision notice issued on the 12th February 2024. Commencement 29th March 2024. Development ongoing.

5.40. These assumptions represent a cautious assessment of the timescales taken to undertake key stages in the development process such as preparing for and undertaking pre-application discussions; carrying out supporting investigations and surveys; securing Planning Permission; completing Section 106 Legal Agreements; discharging pre-commencement conditions; and undertaking pre-construction works.

5.41. Where possible, to increase accuracy of assumptions on lead-in times, they have been further refined through discussions with landowners, land promoters and developers to ensure Shropshire Council can have significant confidence that assumptions for each site are realistic.

Build Rates

5.42. Build rates represent the number of dwellings that it is anticipated will be completed on a site, per-annum. Similar to lead-in times, there are a range of factors that will dictate build rates.

5.43. To ensure consistency in its assessment, Shropshire Council has identified 'standard' build rates, based on its own monitoring of development activity and feedback from the Shropshire Council Developer Panel (consisting of representatives of the various scales of the development industry operating in Shropshire), which indicated that general build rates on sites in Shropshire are around 30-40 units/year.

5.44. Further feedback from the Panel has also indicated that on large sites, build rates can be multiplied to take into consideration that two or more developers (outlets) may be constructing housing units at the same time. Ultimately, it is the experience of many local developers that *'the right site sells well'* in Shropshire.

5.45. The Council's 'standard' build rates are summarised in Table 7 below:

Table 6: 'Standard' Build Rates in Shropshire

Location of Development	Anticipated Build Rate*
North Shropshire	25 dwellings/year
Central Shropshire	38 dwellings/year
South Shropshire	36 dwellings/year

*Sites of more than 250 dwellings and/or with multiple outlets will be subject to a large site multiplier.

5.46. It is considered these build rates represent a fair and reasonable reflection of the local market. However, where possible, to further increase accuracy of assumptions on build rates, proactive discussions are undertaken with landowners, land promoters and developers regarding build-rates on specific sites, to ensure Shropshire Council can have significant confidence that build rate assumptions are realistic.

Sites with Planning Permission at 31st March 2024 (Appendices A and B)

- 5.47. The NPPF states that: *"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:*
- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
 - b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years"³³.*
- 5.48. Consistent with the NPPF, Shropshire Council considers the majority of dwellings on sites with extant Planning Permission to be deliverable and suitable for inclusion within the five year housing land supply.
- 5.49. Shropshire Council recognises some development sites can take a number of years to build out. As such, the number of dwellings expected to be completed annually on deliverable sites is informed by the 'standard' assumptions on lead-in times and build rates – refined through proactive discussions with landowners, land promoters and developers where possible.
- 5.50. Where a proportion of the dwellings on a deliverable site with Planning Permission are expected to occur beyond the next five years, only the dwellings considered deliverable within the first five years are included within the five year housing land supply.
- 5.51. To ensure further robustness within this assessment of housing land supply, Shropshire Council has also applied a very cautious assumption that 10% of deliverable dwellings on sites with Planning Permission will not be delivered in the five year period.
- 5.52. This approach to non-delivery rates is comparable to that utilised by many Local Planning Authorities and is also analogous with standard industry practice. Ultimately there is no mandatory requirement to apply a non-delivery rate to sites with Planning Permission in the housing land supply.

³³MHCLG, (2024), NPPF – Annex 2: Glossary

- 5.53. Shropshire Council considers the use of a consistent assumption that 10% of deliverable dwellings on sites with Planning Permission will not be delivered in the five year period is appropriate and represents a robust approach to variations in the market and other factors that might inhibit development and ensures a comprehensive and consistent assessment of housing land supply.
- 5.54. The deliverable residential sites with Planning Permission are identified within Appendix A of this document. Consistent with the NPPF, where the extant Planning Permission is an outline consent for major development, the sites deliverability is documented within Appendix B of this document.

Sites with a Prior Approval decision at 31st March 2024 (Appendix C)

- 5.55. Sites with Prior Approval are comparable to sites with detailed Planning Permission. As such, similar to sites with Planning Permission, Shropshire Council considers the majority of dwellings on sites with an extant Prior Approval decision (where the decision is either Prior Approval is not required or is approved) are deliverable and suitable for inclusion within the five year housing land supply.
- 5.56. This is consistent with Governments stated intention for amending Permitted Development Rights, for example: *"under new Class MB agricultural buildings will be able to change to up to three dwelling houses (C3), and carry out associated building works, so that rural businesses can diversify **while increasing housing supply**"³⁴ (my emphasis).*
- 5.57. Another example is: *"Permitted development rights have an important role to play in the planning system. They provide a more streamlined planning process with greater planning certainty, while at the same time allowing for local consideration of key planning matters through a light-touch prior approval process. Permitted development rights can incentivise certain forms of development by providing developers with a greater level of certainty, within specific planning controls and limitations. Individual rights provide for a wide range of development and include measures to **incentivise and speed up housing delivery.**"³⁵ (my emphasis).*

³⁴ Explanatory Memorandum to the Town and Country Planning (General Permitted Development (Amendment and Consequential Provisions) (England) Order 2014

³⁵ Explanatory Memorandum to the Town and Country Planning (General Permitted Development ETC.) (England) (Amendment) Order 2021

- 5.58. For the avoidance of doubt, where a proportion of the dwellings on a deliverable site with Prior Approval are expected to occur beyond the next five years, only the dwellings considered deliverable within the first five years are included within the five year housing land supply.
- 5.59. However, similar to dwellings on sites with Planning Permission, it is recognised a small proportion of dwellings on sites with a Prior Approval considered deliverable may not be delivered in the five year period.
- 5.60. With this consideration in mind and to ensure the robustness of this assessment, Shropshire Council has applied a very cautious assumption that 10% of deliverable dwellings on sites with Prior Approval will not be delivered in the five year period.
- 5.61. These sites are identified within Appendix C of this document.

Sites with a 'resolution to grant' Planning Permission at 31st March 2024 (Appendix D)

- 5.62. In some cases, Shropshire Council has 'resolved to grant' Planning Permission on a site, subject to completion of a S106 Legal Agreement.
- 5.63. Selected sites with a 'resolution to grant' Planning Permission have been included in the five year housing supply, as they are considered to be deliverable (as demonstrated by the fact that they have sufficiently progressed to the point where a Planning Application has been submitted and a 'resolution to grant' the Planning Application has been reached).
- 5.64. When considering the deliverability of sites with a 'resolution to grant' Planning Permission, Shropshire Council has exercised caution to ensure the assessment of housing land supply is robust. Therefore, sites are only considered deliverable where they comply with one or more of the following criteria:
- a. The site subject to the Planning Application is an allocation in the adopted Development Plan.
 - b. The site subject to the Planning Application is located within a settlement development boundary and the settlement has been identified as a suitable location for infill/windfall development in the adopted Development Plan.
 - c. The site subject to the Planning Application is for affordable housing, rural workers housing or an agricultural workers dwelling.
 - d. The site subject to the Planning Application is for conversion of an existing building, such as a barn.
 - e. The site subject to the Planning Application is for redevelopment of a select number of sustainable brownfield sites.

- f. The site subject to the Planning Application had a 'resolution to grant' Planning Permission subject to completion of a S106 Legal Agreement at the 31st March 2024 and has subsequently been approved.
- 5.65. For the avoidance of doubt, where a proportion of the dwellings on a deliverable site with a 'resolution to grant' Planning Permission are expected to occur beyond the next five years, only the dwellings considered deliverable within the first five years are included within the five year housing land supply.
- 5.66. This robust approach to filtering Planning Applications with a 'resolution to grant', is complemented by the application of a very cautious assumption that 10% of deliverable dwellings on sites with a 'resolution to grant' Planning Permission will not be delivered in the five year period.
- 5.67. **Please Note: Inclusion of sites with a 'resolution to grant' Planning Permission within this assessment of housing land supply is without prejudice to the Plan making process or completion of the S106 Legal Agreement and final Planning Application decision.**
- 5.68. These sites are identified within Appendix D of this document. For consistency, where a 'resolution to grant' Planning Permission relates to an Outline Planning Application for major development, the sites deliverability has been further documented within this Appendix.

Sites allocated for development within the Development Plan (Appendix E)

- 5.69. Within Shropshire, strategic locations for development were identified in the adopted Core Strategy (2011) and sites have been allocated for development within the adopted SAMDev Plan (2015). Further information on these two documents is available in Chapter 3: Housing Land Requirement.
- 5.70. Further residential development sites have been allocated through 'made' Neighbourhood Plans (which become part of the adopted Development Plan when 'made').

Sustainable Urban Extensions (SUE's)

- 5.71. The Core Strategy (2011) identifies Sustainable Urban Extensions (SUE's) in Shrewsbury and Oswestry (Core Strategy (2011) Policies CS2 and CS3 respectively) as strategic locations for growth.

5.72. The status of these SUE's is summarised in Table 8:

Table 7: Shropshire Sustainable Urban Extensions

Site Name: Shrewsbury South SUE
Site Location: Shrewsbury
Overview: <ul style="list-style-type: none">• Masterplan prepared for the site and adopted by Shropshire Council.• Site subject of comprehensive development in accordance with the adopted masterplan, to include approximately 950 dwellings, employment land and related infrastructure.• Infrastructure costs and contributions agreed, with main landowners (including Shropshire Council) working collaboratively towards delivery.• Development to be brought forward in coordinated phases.
Residential Phases 1a and 2a of the Shrewsbury South SUE: <ul style="list-style-type: none">• Full Planning Permission (13/00893/FUL) granted in May 2014 for 291 dwellings, with development also commencing in May 2014. Development completed in 2022/23.• Full Planning Permission (21/01748/FUL) granted for a 66 bedroom care home in August 2021 (remainder of phase 1), with development commencing in October 2021. Development completed in 2022/23.
Residential Phases 1b, 1c and 2b of the Shrewsbury South SUE: <ul style="list-style-type: none">• Outline Planning Permission (14/04428/OUT) granted for up to 550 dwellings and a 70 bed care home (entirety of phase 2) in June 2015.<ul style="list-style-type: none">-Series of Reserved Matters Permissions for engineering works; construction of access road; construction of attenuation ponds etc granted in March; May; and September 2016. Works subsequently completed.-Reserved Matters Permission (17/06149/REM) granted in April 2018 for 164 dwellings. Development completed in 2023/24.-Reserved Matters Permission (19/00048/REM) granted in April 2019 for 49 dwellings. Development completed in 2021/22.-Reserved Matters Permission (19/04460/REM) granted in March 2020 for 175 dwellings. Development completed in 2023/24.-Reserved Matters Permission (19/05470/REM) granted in April 2020 for 162 dwellings. Development completed in 2023/24.• Alternative Outline Planning Permission (21/02982/OUT) subsequently granted replacing the proposed 70 bedroom Care Home with 35 dwellings (the remaining residential component subject to Outline Planning Permission 14/04428/OUT).<ul style="list-style-type: none">-A Reserved Matters Permission (22/01867/REM) was subsequently granted in August 2022. Development ongoing.
Residential Phase 3 of the Shrewsbury South SUE: <ul style="list-style-type: none">• Full Planning Permission (16/02618/FUL) for 159 dwellings (entirety of phase 3) was approved in December 2016. Development completed in 2019/20.
Wider Development: <ul style="list-style-type: none">• Hybrid Planning Permission (18/04194/FUL) granted on part of the local centre phase 1 site for a food store and specialist housing for older people (Outline Planning Permission applies to the care home and extra-care apartments).<ul style="list-style-type: none">-The food store has been constructed.-Reserved Matters Permission (19/04101/REM) subsequently granted for 80 bed Care Home. Development completed in 2022/23.-The 57 extra-care apartments lapsed, but a new Planning Application (24/01890/FUL) is currently pending consideration for 64 affordable extra-care apartments on this component of the site. Shropshire Council considers there is clear evidence this component of site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years.• Full Planning Permission (22/04029/FUL) granted for the first phase of employment development on around 11ha of land. Development is ongoing.• Other development including a garden centre and retail units approved and completed.

Site Name: Shrewsbury West SUE

Site Location: Shrewsbury

Overview:

- Masterplan prepared for the site and adopted by Shropshire Council.
- Site to be the subject of a comprehensive development in accordance with the adopted masterplan, to include approximately 750 dwellings, employment, the provision of new Oxon Link Road, and other infrastructure.
- The site is a sustainable urban extension, as such it is very large, in multiple ownerships and requires complex S106 Agreements.
- Infrastructure costs and contributions agreed, with main landowners (including Shropshire Council) working collaboratively towards delivery.
- Development to be brought forward in coordinated phases.

Residential Phase 1 of the Shrewsbury West SUE:

- Full Planning Permission (20/01957/FUL) granted for 340 dwellings on the first phase of residential development. Development is ongoing.

Residential Phase 2 of the Shrewsbury West SUE:

- Full Planning Permission (22/03543/FUL) granted for 106 dwellings. Development is ongoing.

Residential Phase 3 of the Shrewsbury West SUE:

- Land is in Shropshire Council ownership. There is a commitment to bring this phase forward for development.

Health/Care Campus Phase of the Shrewsbury West SUE:

- Development to be implemented in a series of sub-phases.
 - Sub-phase 1 granted Full Planning Permission (14/05707/FUL) for 85 extra-care apartments. Development completed in 2017/18.
 - Sub-phase 2 granted Full Planning Permission (20/04541/FUL) for 54 extra-care apartments/bungalows as an extension to the existing facility. Development completed in 2023/24.
 - Sub-phase 3 subject to a Full Planning Application (24/02222/FUL) which is pending consideration for 32 affordable dwellings.
 - Remaining sub-phases are in Shropshire Council ownership and there is a commitment to bringing them forward for development.

General:

- Multiple outlets operating across the Shrewsbury West SUE.
- The remainder of the residential component of the allocation (and other elements of the site) are in Shropshire Council ownership. The Council is committed to securing development on these components of the site.

Site Name: Eastern Gateway SUE

Site Location: Oswestry

Overview:

- Site to be the subject of a comprehensive development, to include approximately 800 dwellings and related infrastructure.
- The site has been in part facilitated by infrastructure improvements funded by the Housing Infrastructure Fund (HIF) - £9.3m granted to Shropshire Council by Homes England for improvements to the nearby Mile End Roundabout, Oswestry, which are now completed.
- Development to be brought forward in coordinated phases - with various phases implemented concurrently.
- To the east of this site is the Oswestry Innovation Park employment allocation. This site will deliver complementary high-quality employment for Oswestry and the surrounding area.

Residential Phases 1 and 2 of the Eastern Gateway SUE:

- Outline Planning Permission (16/02594/OUT) granted for up to 600 dwellings in April 2020. With development to occur over a series of sub-phases.
- Reserved Matters Permission (21/04449/REM) granted for 284 dwellings in November 2022, the first of these sub-phases. Development ongoing.

Residential Phase 3 of the Eastern Gateway SUE:

- Outline Planning Permission (17/06025/OUT) granted in December 2020.
- Reserved Matters Permission (21/03584/REM) subsequently granted for 120 dwellings in February 2023. Development ongoing.

Residential Phase 4 of the Eastern Gateway SUE:

- Land is in Shropshire Council ownership. Full Planning Application (24/00719/OUT) is pending consideration for 89 dwellings.

General:

- Multiple outlets expected to operate across the Eastern Gateway SUE.
- Remainder of this allocation without Planning Permission is in Shropshire Council ownership. The Council is committed to securing development on this component of the site.

5.73. The latest information available has been drawn upon to assess the deliverability (including lead-in times and delivery rates) of each of the SUE's as part of this assessment of the housing land supply in Shropshire.

Other Allocated Sites

5.74. The SAMDev Plan (2015) identifies further housing allocations, which together with other sources of housing land supply are sufficient to ensure the delivery of the agreed Core Strategy (2011) vision, objectives and housing requirement.

5.75. Further residential development sites have been allocated through 'made' Neighbourhood Plans (which become part of the adopted Development Plan when 'made').

Deliverability of Allocations

5.76. The NPPF states: "*To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years.*

In particular:

a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).

b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years”³⁶.

- 5.77. Consistent with this definition of deliverable, Shropshire Council has taken a cautious approach to the inclusion of dwellings on Development Plan allocations (including Neighbourhood Plan allocations) within the five year housing land supply.
- 5.78. Only dwellings considered to be available now, offer a suitable location for development now, and achievable with a realistic prospect that housing will be delivered on the site within five years are included. The availability, suitability and achievability of site allocations has been documented within Appendix E.
- 5.79. Deliverability of Development Plan allocations (including Neighbourhood Plan allocations) and timescales for delivery of dwellings on these sites has been informed by the Council’s ‘standard’ lead in times and build rates, refined through pro-active discussions with landowners, land promoters and developers. This ensures Shropshire Council can have significant confidence that assumptions for each site are realistic.
- 5.80. Where a proportion of the dwellings on a deliverable Development Plan allocations (including Neighbourhood Plan allocations) are expected to occur beyond the next five years, only the dwellings considered deliverable within the first five years are included within the five year housing land supply.
- 5.81. To ensure the robustness of this assessment, a very cautious assumption that 10% of deliverable dwellings on Development Plan allocations (including Neighbourhood Plan allocations) will not be delivered in the five year period is applied.
- 5.82. These sites and a summary of their suitability, availability and achievability (including viability) is documented within Appendix E of this document.
- 5.83. **Please Note: Inclusion of a site allocation within this assessment of the housing land supply is without prejudice to the Plan making process or determination of any planning application for the site.**

³⁶MHCLG, (2024), NPPF – Annex 2: Glossary

Selected sites proposed for allocation for development within the draft Shropshire Local Plan (Appendix F)

- 5.84. Shropshire Council is at an advanced stage of a Local Plan Review. Specifically, following a series of Regulation 18 (plan-making) consultations and a Regulation 19 (pre-submission) consultation, the draft Shropshire Local Plan was submitted to the Secretary of State for examination on the 3rd September 2021.
- 5.85. Stage 1 Hearing Sessions focusing on legal and strategic issues (including strategic policies) were undertaken in July 2022 and January 2023. The Planning Inspectors subsequently issued their Interim Findings (ID28) in February 2023.
- 5.86. Stage 2 Hearing Sessions consisting of further consideration of strategic issues (including strategic policies) and the more detailed settlement and development management policies commenced in October, but were subsequently paused by the Inspectors due to soundness concerns. The Council is currently considering its options on how to proceed.
- 5.87. The Council's approach to the consideration of the deliverability of these sites is to be considered by Cabinet on the 12th February 2025. The number of dwellings considered deliverable within this draft assessment is therefore subject to the outcome of this consideration.
- 5.88. The proposed position statement to be considered by Cabinet suggests a **pragmatic** approach to decision making on proposed allocations, supporting the continued delivery of sustainable development that is plan-led, but recognising and positively responding to the unanticipated delays to the ongoing examination of the draft Shropshire Local Plan.
- 5.89. The proposed position statement to be considered by Cabinet also suggests an approach which **responds to and seeks to align with the NPPF** in terms of giving weight to emerging Local Plans in appropriate circumstances. Specifically, the NPPF stipulates that weight can be given to relevant policies in emerging plans according to:
- "a) the stage of preparation of the emerging plan (the more advanced its preparation, the greater the weight that may be given);*
 - b) the extent to which there are unresolved objections to relevant policies (the less significant the unresolved objections, the greater the weight that may be given); and*
 - c) the degree of consistency of the relevant policies in the emerging plan to this Framework (the closer the policies in the emerging plan to the policies in the Framework, the greater the weight that may be given)"³⁷.*

³⁷MHCLG, (2024), NPPF – Paragraph 49

- 5.90. The proposed position statement to be considered by Cabinet seeks to **recognise that the evidence base** (including that related to Green Belt) underpinning the draft Shropshire Local Plan is itself **a material consideration** in the planning application decision making process, including in the context of determining what constitutes sustainable development.
- 5.91. As such, the proposed position statement to be considered by Cabinet seeks to secure a positive framework which provides the necessary certainty required to conclude that selected proposed allocations are deliverable. The NPPF states *"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years."*³⁸
- 5.92. In this way, the proposed proposed position statement to be considered by Cabinet would supplement the Council's current housing supply in a manner which responds to the NPPF and the needs of communities, whilst seeking to avoid inappropriate development in unsustainable locations.
- 5.93. Furthermore, only the numbers of homes that are considered deliverable within five years would be counted, which in many cases is considerably less than the sites' full capacity. Deliverability has been informed by 'standard' lead in times and build rates identified for this assessment, refined through pro-active discussions with landowners, land promoters and developers to ensure that Shropshire Council can have significant confidence that assumptions for each site are realistic.
- 5.94. To ensure further robustness, a very cautious assumption that 10% of deliverable dwellings on proposed allocated sites included within the five year housing land supply, will not be delivered in the five year period would also be applied.
- 5.95. The availability, suitability and achievability (including viability) of proposed allocations is documented within Appendix F.
- 5.96. **Please Note: Inclusion of a proposed allocation within the draft Shropshire Local Plan in the housing land supply is without prejudice to determination of any planning application for the site.**

Sites from the Strategic Land Availability Assessment (SLAA) (Appendix G)

- 5.97. The Strategic Land Availability Assessment (SLAA) is a technical assessment of the suitability; availability; and achievability (including viability) of land for housing and employment development. The SLAA

³⁸MHCLG, (2024), NPPF – Annex 2: Glossary

considers sites and broad locations for residential development where they are **capable of delivering 5 or more dwellings**. Generally, sites of less than 0.2 hectares are unlikely to achieve these thresholds.

- 5.98. The SLAA was published in late 2018, following a 'call for sites' in early 2017. In excess of 2,000 sites and broad locations were included within the assessment which has informed the draft Shropshire Local Plan.
- 5.99. As the SLAA assessment includes consideration of both sustainability; and the suitability, availability and achievability (including viability) of sites in a manner consistent with the NPPF, it is considered reasonable to include the accepted sites which have an expected yield in the next five years, within the five year housing land supply.
- 5.100. However, to ensure further robustness, a full site by site review has been undertaken of SLAA sites as part of this assessment. Only those where available information provides confidence that the site is deliverable, have they been included within the five year housing land supply. This review included consideration of any updated information regarding site capacity and build rates - reflecting feedback from relevant site promoters, agents and/or developers.
- 5.101. Applying this cautious approach, only 11 SLAA sites are considered deliverable within the next five years. For the avoidance of doubt, only the dwellings on these deliverable SLAA site that are themselves considered deliverable within the next five years were included within the five year housing land supply.
- 5.102. To ensure the robustness of this assessment, a very cautious assumption that 10% of deliverable dwellings on SLAA sites will not be delivered in the five year period is applied.
- 5.103. These sites are identified within Appendix G of this document.
- 5.104. **Please Note: Inclusion of a SLAA site within this assessment of housing land supply is without prejudice to the Plan making process or determination of any planning application for that site.**

Affordable Housing Sites Including Homes England (HE) Funded Sites (Appendix H)

- 5.105. Policies CS5 and CS11 of the Core Strategy (2011); Policy MD7a of the SAMDev Plan (2015); and the supplementary guidance within the accompanying Type and Affordability of Housing Supplementary Planning Document (SPD), support the provision of affordable housing, including on sites outside settlement development boundaries and in rural

hamlets, as an exception to normal planning policies – subject to specific policy requirements.

- 5.106. Furthermore, the Council has consistently enabled such exception sites to come forward over the years, with great success. Indeed, in 2022/23 the Council was the second highest performing Local Authority in terms of rural exception sites.
- 5.107. A detailed review of affordable housing schemes has been undertaken as part of this assessment. Many of these schemes are included within the list of sites with Planning Permission; sites with a 'resolution to grant' Planning Permission or a site submitted to the SLAA and considered deliverable. However, a limited number of other affordable housing schemes were identified, including those on which applications for Homes England (HE) funding have/will be submitted.
- 5.108. Shropshire Council therefore undertook a further appraisal of these sites. Those which were considered deliverable have been included within the five year housing land supply. For the avoidance of doubt, only dwellings on a deliverable affordable housing site considered deliverable within the next five years were included within the five year housing land supply.
- 5.109. To ensure the robustness of this assessment, a very cautious assumption that 10% of deliverable dwellings on these affordable housing sites will not be delivered in the five year period is applied.
- 5.110. **Please Note:** Shropshire Council has a close working relationship with Affordable Housing providers. This has informed assumptions regarding the deliverability of affordable housing schemes.
- 5.111. It is understood there is a long lead-in process to bring forward affordable housing schemes. It is also recognised that affordable housing schemes subject to HE funding are often subject to specific delivery timescales. This is reflected within assumptions in the timescales for delivery. Consequently Shropshire Council has confidence regarding the assessment of the deliverability of these sites.
- 5.112. These sites are identified within Appendix H of this document.
- 5.113. **Please Note: Inclusion of an affordable housing site within this assessment of Housing Land Supply is without prejudice to the Plan making process or the determination of any planning application for that site.**

Windfall Sites (Appendix I)

- 5.114. The NPPF defines windfall sites as *"sites not specifically identified in the development plan."*³⁹ Shropshire Council apply this definition when identifying windfall sites, but for robustness exclude both site allocations within the adopted Development Plan and draft site allocations within the draft Shropshire Local Plan.
- 5.115. The NPPF also recognises that the inclusion of a windfall allowance within a housing land supply is appropriate where there is *"compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends."*⁴⁰
- 5.116. Dealing with each of these considerations in turn:

Strategic Housing Land Availability Assessment

- 5.117. The latest Strategic Housing Land Availability Assessment in Shropshire is incorporated into the Council's Strategic Land Availability Assessment⁴¹.
- 5.118. This assessment included specific consideration of *"the potential for the delivery of housing on windfall sites in Shropshire"* and concluded that *"windfall development does and will continue to represent an important part of the housing land supply"*. As such, it concluded that a windfall allowance was appropriate in both the five year housing land supply and the wider housing land supply.

Historic Windfall Delivery Rates

- 5.119. Best available data on past completions continues to support the importance of windfall sites as an important and appropriate source of supply for residential development.
- 5.120. Specifically, over the last five years (2019/20-2023/24), some 4,302 dwellings (net) have been completed on windfall sites in Shropshire (1,561 dwellings on small scale windfall sites of less than 5 dwellings and 2,741 dwellings on medium and large scale windfall sites of 5 or more dwellings).
- 5.121. This equates to around 57% of total completions achieved within this period (and in each of these five years windfall completions equated to in excess of 51% of total completions achieved).

³⁹ MHCLG (2024), NPPF – Annexe 2: Glossary

⁴⁰ MHCLG (2024), NPPF – Paragraph 75

⁴¹ Shropshire Council (2018), Strategic Land Availability Assessment (SLAA), EV106.01, <https://shropshire.gov.uk/media/20822/slaa-strategic-land-availability-assessment-2018-ev10601.pdf>

- 5.122. Furthermore, over the same five year period (2019/20-2023/24), the average number of net dwellings completed on windfall sites equates to some 860 dwellings (net) per annum (**312 dwellings per annum on small scale windfall sites of less than 5 dwellings** and 548 dwellings per annum on medium and large scale windfall sites of 5 or more dwellings).
- 5.123. These trends support the conclusion that windfall development does and will continue to represent an important part of the housing land supply.

Expected Future Trends

- 5.124. The adopted Development Plan recognises the importance of windfall residential development in Shropshire and makes allowances for and facilitates the delivery of appropriately located windfall sites (where they accord with the policies within the adopted Development Plan).
- 5.125. The importance of windfall residential development in Shropshire is not surprising given that Shropshire is a large rural County containing the Strategic Centre of Shrewsbury; 5 Main Market Towns (Bridgnorth, Ludlow, Market Drayton, Oswestry and Whitchurch); 11 Key Centres (Albrighton, Bishop's Castle, Broseley, Church Stretton, Cleobury Mortimer, Craven Arms, Ellesmere, Highley, Much Wenlock, Shifnal and Wem); rural settlements identified as Community Hubs and Community Clusters; hundreds of other rural villages and hamlets; and a significant rural hinterland.
- 5.126. Consequently there is a constant and significant recycling of previously developed land; significant numbers of infill developments; high numbers of conversions of barns and other rural buildings; and high uptake of affordable housing, including under the 'build your own' affordable housing scheme (supported by Shropshire Council within Policies CS5 and CS11 of the Core Strategy (2011); MD7a of the SAMDev Plan (2015); and supplementary guidance within the Type and Affordability of Housing SPD).
- 5.127. This supports the conclusion that windfall residential development does and will continue to represent an important part of the housing land supply in Shropshire.

Conclusion

- 5.128. The above factors therefore endorse the inclusion of **a very cautious 299 dwellings per year**, for years 4 and 5 of the five year housing land supply.
- 5.129. For the avoidance of doubt, this allowance is consistent with that concluded within the Council's Strategic Land Availability Assessment.

Lapsed Planning Permission (Appendix J)

- 5.130. Often sites that have previously secured Planning Permission where the permission is not subsequently implemented within permitted timescales remain developable. Specifically, in many circumstances the site remains suitable for development and available for development and will be achievable within the proposed plan period.
- 5.131. Consequently, Shropshire Council has undertaken an assessment of sites with capacity for more than five dwellings (as it is anticipated that sites of less than 5 dwellings would be included within the windfall allowance, as identified in Appendix I of this document) in order to determine whether they are suitable for inclusion within the housing land supply.
- 5.132. Ultimately, none of these sites have been included within the five year housing land supply, but a number are considered developable in the longer term. These sites are identified within Appendix J of this document.
- 5.133. **Please Note: Inclusion of a site with a lapsed Planning Permission within this assessment of Housing Land Supply is without prejudice to the Plan making process or the determination of any planning application for that site.**

6. Calculation: Five Year Housing Land Need and Supply

Shropshire Five Year Housing Land Need

- 6.1. The methodology utilised to identify the five year housing land need is outlined in Chapters 3 and 4 of this document.
- 6.2. In summary, as the strategic policies which establish the housing requirement in the adopted Development Plan are more than five years old, this assessment is undertaken in the context of local housing need.
- 6.3. The new 'standard methodology' for assessing local housing need results in a local housing need for Shropshire of 1,994 dwellings per annum.
- 6.4. During the five year period from **2024/25 to 2028/29** this equates to a local housing need of **9,970 dwellings**.
- 6.5. National guidance⁴² specifies that when utilising local housing need to assessment the five year housing Land Supply, then any past under-delivery is embedded within it. As such, no specific adjustment is required with regard to past delivery rates.
- 6.6. The NPPF⁴³ specifies that a buffer, consisting of sites moved forward from later in the plan period, should be included. The extent of this buffer is informed by the results of the housing delivery test.
- 6.7. The latest housing delivery test indicates that there has been no under-delivery in Shropshire, as such the specific adjustment to provide a buffer to create choice and competition in the market for land is 5%, equating to **499 dwellings**.
- 6.8. Table 9 provides a summary of the calculation of the five year housing land need:

Table 8: Summary of Five Year Housing Land Need

Category	Housing Land Need	
(A) 5 Year Requirement:	<i>2024/25</i>	<i>1,994</i>
	<i>2025/26</i>	<i>1,994</i>
	<i>2026/27</i>	<i>1,994</i>
	<i>2027/28</i>	<i>1,994</i>
	<i>2028/29</i>	<i>1,994</i>
	Total	9,970
(B) Under-Delivery:	N/A	
(C) Buffer (5%):	499	
(D) Total Requirement (A) + (B) + (C):	10,469	

⁴² MHCLG, (2024), NPPG, Housing Supply and Delivery (ID68), Paragraph 022

⁴³ MHCLG, (2024), NPPF – Paragraph 78

Shropshire Five Year Housing Land Supply

- 6.9. The methodology utilised to identify the deliverable housing land supply in Shropshire is outlined in Chapter 5 of this document. This methodology is consistent with national policy and guidance.
- 6.10. In particular, when determining whether dwellings on a site are deliverable, Shropshire Council has applied the definition of deliverable provided within the NPPF: "*sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years...*".⁴⁴
- 6.11. In summary, for the purposes of this assessment deliverable dwellings are located on:
- a. Sites with extant Planning Permission at the 31st March 2024 which are likely to be deliverable within five years.
 - b. Sites with an extant and positive Prior Approval decision at the 31st March 2024 which are likely to be deliverable within five years.
 - c. Selected sites with a resolution to grant Planning Permission at the 31st March 2024 which are likely to be deliverable within five years.
 - d. Selected site allocations within the adopted Development Plan which are likely to be deliverable within five years.
 - e. Selected sites proposed for allocation for development within the draft Shropshire Local Plan which are likely to be deliverable within five years.
 - f. Selected sites from the Strategic Land Availability Assessment (SLAA) which are likely to be deliverable within five years.
 - g. Selected affordable housing sites including Homes England (HE) funded sites which are likely to be deliverable within five years.
 - h. Windfall sites.
- *The Council's approach to the consideration of these sites is to be considered by Cabinet on the 12th February 2025. The number of dwellings considered deliverable within this draft assessment is therefore subject to the outcome of this consideration.*
- 6.12. To add further robustness to the assessment, the Council also apply a very cautious assumption that 10% of deliverable dwellings on sites with Planning Permission; Prior Approval; 'resolution to grant' Planning Permission; allocations within the adopted Development Plan; proposed allocations within the draft Shropshire Local Plan; SLAA Sites; and

⁴⁴ MHCLG, (2024), NPPF – Annex 2: Glossary

emerging affordable housing sites will not be delivered in the five year period.

6.13. Table 10 provides a summary of the housing land supply in Shropshire considered deliverable within the next five years, at the 1st April 2024:

Table 9: Summary of the Deliverable Housing Land Supply (at 1st April 2024)

Category	Net Dwellings
(A) Dwellings on sites with Planning Permission*	6,094
(B) Dwellings on sites with Prior Approval*	93
(C) Dwellings on selected sites with a 'resolution to grant' Planning Permission*	19
(D) Dwellings on allocated sites estimated to be completed within 5 years*	689
(E) Dwellings on selected proposed allocated sites estimated to be completed within 5 Years*	2,071
(F) Dwellings on SLAA Sites deliverable within 5 years*	133
(G) Dwellings on emerging affordable housing sites deliverable within 5 years *	205
(H) Dwellings on windfall sites**	598
Total: (A) + (B) + (C) + (D) + (E) + (F) + (G) + H	9,902

*A very cautious assumption that 10% of deliverable dwellings on sites: with Planning Permission; with Prior Approval; with 'resolution to grant' Planning Permission; allocated within the adopted Development Plan; proposed to be allocated within the draft Shropshire Local Plan; identified within the SLAA; and identified as an Emerging Affordable Housing Site; will not be delivered in the five year period has been applied to figures in this table.

**Based on historic delivery rates and expected future trends.

6.14. For information, the actual number of dwellings considered deliverable in the next 5 years in each of the categories of deliverable dwellings, before the 10% deduction is applied, are:

- a. Dwellings on sites with Planning Permission: 6,771 dwellings.
- b. Dwellings on sites with Prior Approval: 103 dwellings.
- c. Dwellings on selected sites with a 'resolution to grant' Planning Permission: 21 dwellings.
- d. Dwellings on site allocations for development: 765 dwellings.
- e. Dwellings on selected sites proposed for allocation for development: 2,301 dwellings.
- f. Dwellings on selected SLAA sites: 148 dwellings.
- g. Dwellings on selected sites seeking Homes England (HE) funding: 228 dwellings.

6.15. The sites which make up the various components of the five year housing land supply at the 1st April 2024 are included within Appendices A-J of this statement.

7. Conclusion: Housing Requirement and Housing Land Supply

- 7.1. Table 11 brings together the five year housing land need and the results of the assessment of the housing land supply considered deliverable within the next five years in Shropshire, at 1st April 2024.
- 7.2. This assessment of the housing land requirement and housing land supply has been undertaken using a cautious and robust methodology consistent with national policy and guidance.

**Table 10: Comparison:
Five Year Housing Land Need & Five Year Housing Land Supply**

Total Need:	10,469
Total Supply:	9,902
Over / Under Provision:	-567
Number of Years Supply:	4.73

- 7.3. Table 11 demonstrates that despite identifying a very significant supply of deliverable housing land, Shropshire Council has concluded that on the basis of the new 'standard methodology' for assessing local housing need, it is unable to demonstrate a five year housing land supply.
- 7.4. Specifically the Council considers that a **4.73 years' supply of deliverable housing land** exists in Shropshire.
- 7.5. Paragraph 11 of the NPPF specifies that in circumstances where the Local Planning Authority cannot demonstrate a five year supply of deliverable housing sites, a 'presumption in favour of sustainable development' should apply. For decision taking, it specifies that this means:
- "c) approving development proposals that accord with an up-to-date development plan without delay; or*
- d) where there are no relevant development plan policies, or the policies for the supply of land are out-of-date, granting permission unless:*
- i. the application of policies in this Framework that protect areas or assets of particular importance provides a clear reason for refusing the development proposed; or*
- ii. any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole, **in particular those for the location and design of development (as set out in chapters 9 and 12) and for securing affordable homes.**" (our emphasis).*

Five Year Housing Land **Supply Statement** **Annexe**

Annex 1. Housing Commitments & Completions

Commitments and Completions

A1.1. As it is recognised that this is an area of interest for these communities, a summary of the net commitments and completions is provided in Table 12: Market Towns; Table 13: Hubs and Clusters; and Table 14: Wider Rural Area:

Table 11: Housing Commitments and Completions in Shrewsbury, the Market Towns and Key Centres

Settlement	Completions (2006/07 – 2023/24)	Sites with Planning Permission or Prior Approval (at the 31 st March 2024)	Allocations without Planning Permission (at 31st March 2024)	Proposed Allocations without Planning Permission (at 31st March 2024)
Albrighton	216	83	110	180
Bishop's Castle	128	24	40	0

Tilstock, Ash Magna/Ash Parva, Prees Heath, Ightfield and Calverhall	Whitchurch	166	5	5	0
Total		3,222	1,004	413	1,136

^A11 completions at 31st March 2024 have been excluded to offset the exclusion of 11 commitments when identifying the SAMDev Housing Requirement.

^B116 dwellings outstanding (at 2013) on Planning Permission OS/05/13887/REM (Almond Avenue, Gobowen) were excluded from consideration when identifying the SAMDev Housing Requirement. All dwellings are now completed however the total number of units completed across the development increased to 126.

Planning Permission OS/05/13887/REM and 14/00568/FUL (Almond Avenue, Gobowen) therefore 126 dwellings removed from figures, as the site was excluded from consideration when identifying the SAMDev Housing Requirement.

^C42 completions at the 31st March 2024 have been excluded to offset the exclusion of 42 commitments when identifying the SAMDev Housing Requirement.

^D89 dwellings outstanding (at 2024) on Planning Permission 15/05307/REM (Gro Continental Site, Prees) (Outline Consent 09/00111/OUT) were excluded from consideration when identifying the SAMDev Housing Requirement. 26 completions and 89 commitments on Planning Permission 15/05307/REM (Gro Continental Site, Prees) (Outline Consent 09/00111/OUT) removed.

The completions in each of the Community Hubs and Clusters include exception development which contributes to the housing requirement for the Community Hub or Cluster. Please Note: Figures provided are net.

Table 13: Housing Commitments and Completions in the Rural Area

	Completions (2006/07 – 2023/24)	Sites with Planning Permission or Prior Approval (at the 31st March 2024)
Wider Rural Area	4,786	2,015

*The completions in the rural area exclude exception development which contributes to the housing requirement of Shrewsbury, Market Towns, Key Centres, Community Hubs or Community Clusters.

**Completions in the rural area include those which occurred in Community Hubs and Community Clusters prior to the identification of housing guidelines for these areas, as these have not been counted towards the achievement of the identified housing guidelines.

***Commitments and completions include those dwellings excluded from Community Hub or Community Cluster settlement guidelines, based on the factors which informed the identification of these settlement guidelines within the SAMDev Plan.

Please Note: The figures provided are net.

Appendix B. Deliverability of Sites for Major Development with Outline Planning Permission at 31st March 2024

Planning Application	Address	Date of Decision	Deliverability
21/01136/FUL	Proposed Residential Development Land To The South Of Chirbury, Shropshire	05/06/2023	Sites allocated within the SAMDev Plan Allocation (CHIR001). The Application is a Hybrid Planning Permission, with 13 dwellings benefiting from Full Permission and 27 dwellings benefiting from Outline Permission. The component of the site with Full Permission is ongoing and will facilitate the wider development. Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years.
21/05023/OUT	Proposed Residential And Commercial Development Land, Tasley, Bridgnorth, Shropshire	06/03/2024	Sites allocated within the SAMDev Plan Allocation (BRID001, BRID020a and BRID020b (linked to ELR011a and ELR011b)). Reserved Matters Application (24/01598/REM) pending consideration for phases 1 and 7. The applicant is a developer, Crest Nicholson. Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years.
20/02270/OUT	Land Adjacent To Glen Havon, Dudleston Heath, Shropshire	22/03/2022	Recent consent on a SAMDev Plan Allocation DUDH006. Reserved Matters Permission (23/04047/REM) granted for 29 dwellings post 31st March 2024 and development has now commenced. Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years.
22/01789/OUT	Station Yard, Pipe Gate, Market Drayton, Shropshire	26/06/2023	This Outline Planning Permission is for phase 2 of an ongoing development. The applicant is a developer, Woodcock Developments Limited. Phase 1 of the development was granted Full Planning Permission (21/02241/FUL), with the same applicant and is ongoing. It is expected that phase 2 will follow on, with the custom-build component of the scheme undertaken by the applicant alongside self-builders. Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years.
23/04420/OUT	Site Of Universal House, Milton Drive, Market Drayton, Shropshire	22/03/2024	Reserved Matters Permission (24/02184/REM) granted post 31st March 2024. Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years.
19/05560/OUT	Ironbridge Power Station, Buildwas Road, Ironbridge, Telford, Shropshire, TF8 7BL	16/09/2022	Proposed strategic allocation within the draft Shropshire Local Plan. Development co-ordinated by a Masterplanner - Harworth Group PLC. Various Full and Reserved Matters Permissions for enabling and infrastructure works granted and works undertaken. Further Reserved Matters pending consideration for enabling works, particularly earchworks. Extensive investment, demolition and enabling works undertaken to prepare the site for redevelopment. Reserved Matters Permission (24/02380/REM) granted for phase 1a consisting of 107 dwellings. The applicant is Barratt David Wilson Homes and development has commenced. Reserved Matters Application (24/03660/REM) pending consideration for phase 2a consisting of 202 dwellings. The applicant is Taylor Wimpey. Numerous other Reserved Matters are pending consideration to facilitate other residential phases of development on the site.
16/02594/OUT	Proposed Development Land To The North Of Shrewsbury Road, Oswestry	22/04/2020	Site was allocated within the SAMDev Plan (OSW024). Reserved Matters Permission (21/04449/REM) granted for the first phase of development under this Outline Planning Permission (284 dwellings). The applicant is a developer (Pickstock Homes). Development has commenced. Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years. The component of the site subject to Outline Planning Permission is expected to follow-on from that with Reserved Matters Permission.

Planning Application	Address	Date of Decision	Deliverability
19/04202/OUT	Lord Hill Hotel, Abbey Foregate, Shrewsbury, Shropshire, SY2 6AX	07/09/2021	<p>This is a Hybrid Planning Permission (19/04202/OUT). Full Planning Permission granted for conversion of the listed hotel into 4 dwellings, which has recently been completed. Outline Planning Permission granted for residential development to the rear of the hotel following demolition of certain existing buildings. Full Planning Permission (22/01013/FUL) subsequently granted for demolition of certain existing buildings, which has been undertaken. Full Planning Application (24/04102/FUL) now pending consideration for the erection of 3 apartment buildings. The applicant is a developer - SY Homes with known interest in progressing the element of the site subject to Outline Planning Permission. Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years.</p>
20/05065/OUT	Flax Mill, Spring Gardens, Shrewsbury, Shropshire	10/05/2021	<p>Site allocated within the SAMDev Plan Allocation (SHREW198). Hybrid Planning Permission (20/05065/OUT) granted, which includes 120 dwellings. Extensive works have been undertaken on the site: -Full Planning Permissions granted for works to the main mill, dye and stove houses and silos. Works on each of these buildings have either commenced or been completed. -Another Full Planning Application granted for off-site works to the highway, these works are ongoing. -On 3rd March 2023, a Compulsory Purchase Order pursuant to section 226(1)(a) of the Town and Country Planning Act 1990 to assemble the land required to deliver the mixed-use development comprising residential accommodation, together with commercial, business and service uses being a key element of the wider regeneration of Shrewsbury Flaxmill Maltings was approved. -Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years. -The Historic England Shrewsbury Flaxmill Maltings Website includes "<i>Historic England is looking to commence the marketing of the wider site later in 2024 with a view to appointing an appropriate Development Partner with the necessary experience and track record in the delivery of similar schemes in early 2025.</i>" They then specify the expectation that the earliest start date is early 2026. www.shrewsburyflaxmillmaltings.org.uk/feature/wider-site-plans-at-shrewsbury-flaxmill-maltings/</p>
21/05743/OUT	Land Off Ellesmere Road, Hencote, Shrewsbury, Shropshire	02/03/2023	<p>Planning Permission granted at appeal. Appellants confirmed intention for the site to be built-out by 2026. Operator for the Care Home associated with the site. It is considered that this site is available for development, represents a suitable location for development now, that a suitable development can be achieved on the site and there is a realistic prospect that housing will be delivered within five years. As such the site is considered deliverable within the five year period.</p>
20/01054/OUT	Land West Of Lowe Hill Road, Wem, Shropshire	28/01/2022	<p>Site allocated within the SAMDev Plan Allocation (WEM003). Outline Planning Permission granted at appeal. Reserved Matters Application (24/04470/REM) now pending consideration. The applicant is a developer - Persimmon Homes. Known developer interest. Shropshire Council considers that there is clear evidence that the site is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered within five years.</p>

23/04304/FUL	Proposed Local Needs Dwellings SW Of Waterloo, Whixall, Shropshire	Affordable housing / rural worker / agricultural dwellings. Resolution to grant subject to completion of a S106 Legal Agreement (completed post 31/03/2024).	2	0	2						2	0
23/02241/FUL	Land Opposite Ash Grove, Ash, Shropshire, SY13 4DL	Affordable housing / rural worker / agricultural dwellings. Resolution to grant subject to completion of a S106 Legal Agreement (completed post 31/03/2024).	1	0	1						1	0

Affordable housing / rural worker / agricultural dwellings.

Conversion of an existing building, including barns.

Existing Local Plan sites or proposed SAMDev Plan sites.

Justification:

Resolution to grant subject to completion of a S106 Legal Agreement (completed post 31/03/2024).

Selected redevelopment of brownfield sites.

Sites within a settlements development boundary where the settlement has been identified as a suitable location for infill/windfall development within the SAMDev Plan.

Total Years 1-5: 21
10% Allowance Years 1-5: 2
Total After 10% Allowance: 19

Appendix E. Sites allocated for development within the adopted Development Plan

Allocation Reference	Address	Suitability	Availability	Achievability	Viability
ALB002	Land at White Acres, Albrighton	Allocated site.	Represented through the site allocation process. No known impediments to the availability of the site. Development company established for the site, which is to be brought forward in phases. Phases 1 and 2 benefit from Planning Permission (BR/APP/OUT/08/0907 and 14/05456/REM for Phase 1 and 15/02448/FUL for Phase 2) and development has commenced. Phase 3 achieved Outline Planning Permission (23/02095/OUT) for up to 90 dwellings post 31st March 2024.	Represented through the site allocation process. No known impediments to the availability of the site. Development company established for the site, which is to be brought forward in phases. Phases 1 and 2 benefit from Planning Permission (BR/APP/OUT/08/0907 and 14/05456/REM for Phase 1 and 15/02448/FUL for Phase 2) and development has commenced. Phase 3 achieved Outline Planning Permission (23/02095/OUT) for up to 90 dwellings post 31st March 2024.	No known viability concerns.
ALB003	Land East of Shaw Lane, Albrighton	Allocated site.	Site promoted through the site allocation process. No known impediments to the availability of the site. Full Planning Application (21/05665/FUL) is now pending decision with a resolution to grant reached for 24 dwellings.	Site promoted through the site allocation process. No known impediments to the availability of the site. Full Planning Application (21/05665/FUL) is now pending decision with a resolution to grant reached for 24 dwellings.	No known viability concerns.
BISH013	Schoolhouse Lane East, Bishop's Castle	Allocated site.	Site promoted through the site allocation process. Single landowner. No known impediments to the availability of the site.	Site promoted through the site allocation process. Bishop's Castle is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.	Bishop's Castle is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.
BUCK001	Timber/Station Yard, Bucknell	Allocated site.	Brownfield site within the settlement. Site promoted through the site allocation process. No known impediments to the availability of the site.	Brownfield site within settlement. Bucknell is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.	Bucknell is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.

Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
ALB002	Land at White Acres, Albrighton	Development company established for the site, which is to be brought forward in phases. Phases 1 and 2 benefit from Planning Permission (BR/APP/OUT/08/0907 and 14/05456/REM for Phase 1 and 15/02448/FUL for Phase 2) and development has commenced. Phase 3 achieved Outline Planning Permission (23/02095/OUT) for up to 90 dwellings post 31st March 2024. It is considered that this site is available for development, represents a suitable location for development now, that a suitable development can be achieved on the site and there is a realistic prospect that housing will be delivered within five years. As such the site is considered deliverable within the five year period.	90	0	90		15	25	25	25	90	0
ALB003	Land East of Shaw Lane, Albrighton	Small greenfield site within village development boundary. Considered a sustainable site for an appropriate scheme and no fundamental planning issues. Resolution to grant Full Planning Permission (21/05665/FUL) was reached, but the application was subsequently withdrawn for non-planning reasons. The Council expect the site to come forwards for development in the medium term.	20	0	20						0	20
BISH013	Schoolhouse Lane East, Bishop's Castle	Bishop's Castle is located within the River Clun catchment. To protect the integrity of the River Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.	40	0	40						0	40
BUCK001	Timber/Station Yard, Bucknell	Brownfield site within the settlement. Bucknell is located within the River Clun catchment. To protect the integrity of the River Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.	70	0	70						0	70

Allocation Reference	Address	Suitability	Availability	Achievability	Viability
CHIR001	Land to the rear of Horseshoe Road, Chirbury	Allocated site.	Site promoted through the site allocation process. No known impediments to the availability of the site. One landowner (Estate). Hybrid Planning Permission (21/01136/FUL) granted for the development of the site. Phase 1: Which is subject to the Full component of the Hybrid Planning Permission is for 13 affordable dwellings, which would support the wider delivery of the allocation. Phase 2: Which is subject to the Outline component of the Hybrid Planning Permission is for 27 dwellings.	Site promoted through the site allocation process. Hybrid Planning Permission (21/01136/FUL) granted for the development of the site. Phase 1: Which is subject to the Full component of the Hybrid Planning Permission is for 13 affordable dwellings, which would support the wider delivery of the allocation. Phase 2: Which is subject to the Outline component of the Hybrid Planning Permission is for 27 dwellings.	Hybrid Planning Permission (21/01136/FUL) granted for the development of the site. Phase 1: Which is subject to the Full component of the Hybrid Planning Permission is for 13 affordable dwellings, which would support the wider delivery of the allocation. Phase 2: Which is subject to the Outline component of the Hybrid Planning Permission is for 27 dwellings.
CLUN002	Land at Turnpike Meadow, Clun	Allocated site.	Site promoted through the site allocation process. No known impediments to the availability of the site.	Greenfield site on edge of settlement. Clun is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.	Clun is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.
LYD007	South of the Telephone Exchange, Lydbury North	Allocated site.	Site promoted through the site allocation process. No known impediments to the availability of the site.	Small greenfield site on edge of settlement. Highway junction improvement required. Lydbury North is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.	Highway junction improvement required. Lydbury North is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.
LYD008	North of the Telephone Exchange, Lydbury North	Allocated site.	Site promoted through the site allocation process. No known impediments to the availability of the site.	Small greenfield site on edge of settlement. Lydbury North is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.	Lydbury North is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.
LYD009	Former Garage, Lydbury North	Allocated site.	Site promoted through the site allocation process. No known impediments to the availability of the site.	Site promoted through the site allocation process. Lydbury North is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.	Contaminated site. Lydbury North is located within the River Clun catchment. To protect the integrity of the river Clun Special Area of Conservation and to comply with the Habitats Regulations, development within the catchment of the river Clun will only be permitted if it can demonstrate either nutrient neutrality or nutrient betterment.

CM1	Land at Ludlow Road, Cleobury Mortimer	Allocated site within the Cleobury Mortimer Neighbourhood Plan.	Site promoted through the Neighbourhood Plan process.	Site promoted through the Neighbourhood Plan process.	No known viability concerns.
CMO002	Land off Tenbury Road, Cleobury Mortimer	Allocated site.	Development completed.	Development completed.	Development completed.

Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
HO2	Land off Avenue Road, Broseley	Site promoted through the Neighbourhood Plan process and subsequently allocated within the Broseley Neighbourhood Plan with an indicative capacity of around 20 dwellings. Adjoining site in same ownership has Outline and Reserved Matters Planning Permission (19/03639/REM) for a mixed use development including 16 dwellings, it is expected that this site will follow on from development of this site. It is considered that this site is available for development, represents a suitable location for development now, that a suitable development can be achieved on the site and there is a realistic prospect that housing will be delivered within five years. As such the site is considered deliverable within the five year period.	20	0	20				20		20	0
CSTR018	School Playing Fields, Church Stretton	It is understood that this site is not available for development.	0	0	0						0	0
CSTR019	Battlefield to rear of Oaks Road/Alison Road, Church Stretton	Greenfield site on the edge of the settlement, within the settlement boundary. Outline and Reserved Matters Planning Permissions (14/01173/OUT and 16/02491/REM) granted on this site for 43 dwellings. Development has been implemented.	0	0	0						0	0
CM1	Land at Ludlow Road, Cleobury Mortimer	Site promoted through the Neighbourhood Plan process and subsequently allocated within the Cleobury Mortimer Neighbourhood Plan with an indicative capacity of around 120 dwellings. Known developer interest. It is considered that this site is available for development, represents a suitable location for development now, that a suitable development can be achieved on the site and there is a realistic prospect that housing will be delivered within five years. As such the site is considered deliverable within the five year period.	120	0	120			36	36	36	108	12
CMO002	Land off Tenbury Road, Cleobury Mortimer	Development completed.	0	0	0						0	0

Allocation Reference	Address	Suitability	Availability	Achievability	Viability
CMO005	Land at New House Farm, Cleobury Mortimer	Allocated site.	Site promoted through the site allocation process. Development subject to access off Tenbury Road or via adjoining site off Tenbury Road (CMO002). Outline Planning Permission (19/05260/OUT) previously granted for 5 dwellings.	Site promoted through the site allocation process. Adjacent allocation has reserved matters approval. Outline Planning Permission (19/05260/OUT) previously granted for 5 dwellings.	No major viability issues raised to date.
KLT001	Land off Little Stocks Close, Kinlet	Allocated site.	Site promoted through the site allocation process. Part of site has been transferred to a Registered Social Landlord (RSL), the remainder is owned by the Estate. Planning Permissions granted on both aspects of the site and phase 1 has been built out. No known impediments to the availability of the site.	Site promoted through the site allocation process. Full Planning Permission (14/00897/FUL) granted for 8 dwellings, which has subsequently been completed. Outline Planning Permission (19/05151/OUT) granted for a further 15 dwellings a Reserved Matters Planning Application (23/01810/REM) now pending consideration. Likely to be delivered. Total site capacity 23 dwellings.	No known viability concerns.
CRAV002	Land off Watling Street, Craven Arms	Allocated site.	Development completed.	Development completed.	Development completed.
CRAV003 & CRAV009	Land between Watling Street and Brook Road, Craven Arms	Allocated site.	Site promoted through the site allocation process. No developer involvement but willing landowner with track record of releasing land for development of the town.	Site promoted through the site allocation process. Indicative layout and other supporting information provided. Surface water flood risk affects part of combined site but can be accommodated through a SUDS scheme requiring all of CRAV009 for provision of swales and balancing ponds for flood storage capacity. Development linked to provision of northern highway access to town, and landowners to form part of delivery partnership.	Significant constraints but supporting information provided, therefore the site is still considered viable. Shropshire Council has submitted highway infrastructure associated with this and other sites for inclusion within National Highways ongoing Route Strategy update.

Allocation Reference	Address	Suitability	Availability	Achievability	Viability
CRAV004 & CRAV010	Land off Watling Street East, Craven Arms	Allocated site.	Site promoted through the site allocation process. The site is now owned by a developer (Connexus) who are pursuing development of the site. Full Planning Permission (18/04931/FUL) for phase 1 granted and development now completed. Phase 2 anticipated to follow-on in due course.	Site promoted through the site allocation process. No highway access constraint at this point on Watling Street. No known impediments to the availability of the site. The site is now owned by a developer (Connexus) who are pursuing development of the site. Full Planning Permission (18/04931/FUL) for phase 1 granted and development now completed. Phase 2 anticipated to follow-on in due course.	Some viability risk resulting from archaeological interest, but earlier evaluation indicates no fundamental constraints - potential impact limited to reduction in site capacity.
CRAV024	Land adjoining Clun Road / Sycamore Close, Craven Arms	Allocated site.	Site promoted through the site allocation process. No known impediments to the availability of the site.	Site promoted through the site allocation process. No highway access constraint at this point on Watling Street. No developer involvement but willing landowner with track record of releasing land for development of the town.	No significant viability constraints.
CRAV030	Land at Newington Farmstead, Craven Arms	Allocated site.	Site promoted through the site allocation process. No known impediments to the availability of the site.	Site promoted through the site allocation process. Detailed submission including indicative layout provided. Owners in negotiation with Highways Agency regarding A49 junction to serve adjoining abattoir development, with scope to also serve this site (but site has separate access in any event). Development likely to follow first phase of adjoining abattoir development which provides replacement livestock storage and releases site for redevelopment.	No known viability constraints.
CO002a & CO002b	Land to the West of Cockshutt	Allocated site.	Site promoted through the site allocation process. Straightforward small greenfield site. Full Planning Permission (17/05018/FUL) granted for 4 dwellings on phase 1 CO002b and development now completed. Phase 2 CO002a expected to follow on. No known impediments to the availability of the site.	Site promoted through the site allocation process and likely to be delivered. Full Planning Permission (17/05018/FUL) granted for 4 dwellings on phase 1 CO002b and development now completed. Phase 2 CO002a expected to follow on. Total site capacity considered to be 10 dwellings.	No major viability issues noted to date. Updated Highway evidence assessed and found to demonstrate delivery.
CO005 & CO0023	Land at Cockshutt House Farm and Land South of Kenwick Road, Cockshutt	Allocated site.	Development completed.	Development completed.	Development completed.
CO018	Land South of Chapel House Farm, Cockshutt	Allocated site.	Development completed.	Development completed.	Development completed.

Appendix F. Sites proposed for allocation for development within the draft Shropshire Local Plan

Proposed Site Allocation Reference	Address	Suitability	Availability	Achievability	Viability
ALB017 & ALB021	Land north of Kingswood Road and Beamish Lane, Albrighton	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review. ALB017 represents the larger of the two components of the site through which it is envisaged that access will be provided. The Site Promoters Regulation 19 Representation (A0357) states "We can confirm that the delivery timescales for this site shown in Appendix 7 of the draft Plan are appropriate." It is anticipated that ALB021 will then follow on, representing the second phase of development.	ALB017: Site Promoters Regulation 19 Representation (A0357) states "the site is viable and deliverable, having regard to the policy requirements in the draft Plan." ALB021: In isolation, this element of the site is consistent with a typology within the Whole Plan Viability Assessment that is considered viable. No known impediments to the achievability or viability of the site.
BKL008a	Land adjoining Redlake Meadow on B4367, Bucknell	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan. The site is located within the Clun Catchment, as such its delivery is linked to compliance with draft Policy DP13 of the draft Shropshire Local Plan regarding achieving nutrient neutrality for the lifetime of the development and ensuring measures of achieving nutrient neutrality do not compromise the ability of the River Clun SAC to reach favourable conservation status. Such measures will be identified through a SPD, informed by a SAC Restoration Plan. The site is therefore considered developable within the Plan period	Site proactively promoted through the Local Plan Review.	Greenfield site. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. The site is located within the Clun Catchment, as such its delivery is linked to compliance with draft Policy DP13 of the draft Shropshire Local Plan regarding achieving nutrient neutrality for the lifetime of the development and ensuring measures of achieving nutrient neutrality do not compromise the ability of the River Clun SAC to reach favourable conservation status. Such measures will be identified through a SPD, informed by a SAC Restoration Plan. The site is therefore considered developable within the Plan period.
CHR001	Land between Orchard House and Crofton, Chirbury	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Small greenfield site. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.
CHR002	Land south of the A490, Chirbury	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Small greenfield site. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.

Proposed Site Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
ALB017 & ALB021	Land north of Kingswood Road and Beamish Lane, Albrighton	The site is considered suitable, available, achievable and viable. Considered likely to be delivered within the timescales identified. The promoter of ALB017 specified in their Regulation 19 Representation (A0357) that "We can confirm that the delivery timescales for this site shown in Appendix 7 of the draft Plan are appropriate." Within their Matter 7 statement (M7.03 – paragraph 1.16), the promoter states "Table A7 of the Pre Submission Version identifies delivery within the Short Term (2020/21-2024/25) and Medium Term (2025/26 – 2029/30). Wain Estates support this assessment." This component of the site is currently the subject of an Outline Planning Application (24/02662/OUT) for 150 dwellings, the applicant is a developer (Wain Estates are part of the Wain Group which includes Wain Homes). It is anticipated that ALB021 will then follow on, representing the second phase of development.	180	0	180			36	36	36	108	72
BKL008a	Land adjoining Redlake Meadow on B4367, Bucknell	Greenfield site. The site is located within the Clun Catchment, as such its delivery is linked to compliance with draft Policy DP13 of the draft Shropshire Local Plan regarding achieving nutrient neutrality for the lifetime of the development and ensuring measures of achieving nutrient neutrality do not compromise the ability of the River Clun SAC to reach favourable conservation status. Such measures will be identified through a SPD, informed by a SAC Restoration Plan. The site is therefore considered developable within the Plan period.	20	0	20						0	0
CHR001	Land between Orchard House and Crofton, Chirbury	Small greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Considered likely to be delivered within the timescales identified.	7	0	7						0	7
CHR002	Land south of the A490, Chirbury	Small greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Considered likely to be delivered within the timescales identified.	7	0	7						0	7

Proposed Site Allocation Reference	Address	Suitability	Availability	Achievability	Viability
CLU005	Land at Turnpike Meadow on B4368, Clun	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan. The site is located within the Clun Catchment, as such its delivery is linked to compliance with draft Policy DP13 of the draft Shropshire Local Plan regarding achieving nutrient neutrality for the lifetime of the development and ensuring measures of achieving nutrient neutrality do not compromise the ability of the River Clun SAC to reach favourable conservation status. Such measures will be identified through a SPD, informed by a SAC Restoration Plan. The site is therefore considered developable within the Plan period	Site proactively promoted through the Local Plan Review.	Greenfield site. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. The site is located within the Clun Catchment, as such its delivery is linked to compliance with draft Policy DP13 of the draft Shropshire Local Plan regarding achieving nutrient neutrality for the lifetime of the development and ensuring measures of achieving nutrient neutrality do not compromise the ability of the River Clun SAC to reach favourable conservation status. Such measures will be identified through a SPD, informed by a SAC Restoration Plan. The site is therefore considered developable within the Plan period.
WBR007 & WBR008	Land at Bank Farm, Worthen	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Predominantly greenfield site. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.
WBR010	Land South of the B4386, Worthen	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Greenfield site. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.
ALV006 & ALV007	Land north of Daddlebrook Road and west of A442, Alveley	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Greenfield site currently located within the Green Belt. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.
ALV009	Land Adjacent to The Cleckars, Alveley	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Greenfield site currently located within the Green Belt. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.

Proposed Site Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
CLU005	Land at Turnpike Meadow on B4368, Clun	Greenfield site. The site is located within the Clun Catchment, as such its delivery is linked to compliance with draft Policy DP13 of the draft Shropshire Local Plan regarding achieving nutrient neutrality for the lifetime of the development and ensuring measures of achieving nutrient neutrality do not compromise the ability of the River Clun SAC to reach favourable conservation status. Such measures will be identified through a SPD, informed by a SAC Restoration Plan. The site is therefore considered developable within the Plan period.	20	0	20						0	20
WBR007 & WBR008	Land at Bank Farm, Worthen	Predominantly greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Considered likely to be delivered within the timescales identified. Planning Application (23/02100/OUT) refused on part of the site, but demonstrates developer interest.	25	0	25						0	25
WBR010	Land South of the B4386, Worthen	Greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Considered likely to be delivered within the timescales identified.	20	0	20						0	20
ALV006 & ALV007	Land north of Daddlebrook Road and west of A442, Alveley	Greenfield site currently located within the Green Belt. No other known fundamental planning issues. The site is considered suitable, available, achievable and viable subject to its release from the Green Belt. Considered likely to be delivered within the timescales identified.	35	0	35						0	35
ALV009	Land Adjacent to The Cleckars, Alveley	Greenfield site currently located within the Green Belt. No other known fundamental planning issues. The site is considered suitable, available, achievable and viable subject to its release from the Green Belt. Considered likely to be delivered within the timescales identified.	35	0	35						0	35

Proposed Site Allocation Reference	Address	Suitability	Availability	Achievability	Viability
BRD030	Tasley Garden Village, Bridgnorth	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Site promoters Regulation 19 Representation (A0609) states "Tasley Garden Village is an available, suitable and deliverable site and therefore the inclusion in the draft Local Plan Review is fully supported." It also states "Taylor Wimpey proposes to comply with the required/proposed affordable housing requirement set out within Policy DP3 of the Local Plan Review within Tasley Garden Village" and "Taylor Wimpey can confirm that Tasley Garden Village would be a policy compliant development and deliver all the necessary requirements on site." The Development Statement submitted as part of this Regulation 19 Representation states "Taylor Wimpey has reviewed the economic viability of the site and proposals in terms of land values, market attractiveness/demand sales rates and development costs and can confirm that the development is economically viable and capable of delivering the required infrastructure." Large greenfield site. Considered there is sufficient viability to undertake necessary infrastructure contributions.
DNP009	Land off Derrington Road, Adjacent to Brown Clee Primary School, Ditton Priors	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Greenfield site. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.
ELL005, ELL008 & ELL033	Land South of Oswestry Road, Ellesmere	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review. Site promoter correspondence (Appendix 2 of the Viability Topic Paper) confirms intention for early implementation of the site.	Large greenfield site. ELL008 and ELL033: Site promoters Regulation 19 Representation (A0588) states "The land is available, viable and deliverable and will be brought forward at the earliest opportunity." ELL005: Site promoters correspondence (Appendix 1 of the Viability Topic Paper) states "can confirm the site is viable and deliverable".
HNN016	Land South of Oak Street, Highley	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Large greenfield site. Site promoters Regulation 19 Representation (A0042) states "We can confirm that the site will be able to meet the Plan's development guidelines..." It also states "Allocation HNN016 is deliverable and viable." No known impediments to the achievability or viability of the site.
BUR002	Land adjoining Lineage Farm on A456, Burford	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Greenfield site. The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.

Proposed Site Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
BRD030	Tasley Garden Village, Bridgnorth	<p>Large greenfield site, which is considered suitable, available, achievable and viable.</p> <p>Site promoters Regulation 19 Representation (A0609) states "The site creates opportunities to create a sustainable community with delivery in the early years of the plan."</p> <p>Shropshire Council has engaged in positive dialogue with the site promoter in relation to future development of this site, with two Statements of Common Ground (SoCG07 and SoCG013) completed between the Council and the site promoter. Within SoCG013 the site promoter indicates that they expect 225 dwellings to be delivered in the first five years and up to 100 dwellings per annum to be achieved on an annual basis.</p> <p>Within their Matter 9 (M9.05 – paragraph 21.2-2.13) statement, the site promoter states at paragraph 2.3 that "Bloor and Taylor Wimpey are in the process of preparing a planning application for the site with the view to submitting an outline application in early 2025." And in Para 2.17 they explain some of the works being undertaken to achieve this, referencing the "...ongoing masterplanning process" within which "consideration is being given to the design, layout and the suitable phasing of development and infrastructure delivery...".</p> <p>An Environmental Scoping Opinion (24/02859/SCO) has recently been sought in relation to the potential future development of this site.</p>	1,050	0	1,050			25	100	100	225	825
DNP009	Land off Derrington Road, Adjacent to Brown Clee Primary School, Ditton Priors	<p>Greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Considered likely to be delivered within the timescales identified.</p> <p>Resolution to Grant Full Planning Application (24/02828/FUL) for 44 dwellings has been reached.</p>	44	0	44		25	19			44	0
ELL005, ELL008 & ELL033	Land South of Oswestry Road, Ellesmere	<p>Full Planning Permission (21/03602/FUL) granted for 107 dwellings on ELL005 and development is ongoing.</p> <p>ELL008 & ELL033 now linked to the delivery of the existing mixed use allocation ELL003a & ELL003b. Full Planning Permission (23/02170/FUL) granted to facilitate this development.</p>	0	0	0						0	0
HNN016	Land South of Oak Street, Highley	<p>Large greenfield site. The site is considered suitable, available, achievable and viable. Site promoters Regulation 19 Representation (A0042) states "It is likely to start to be delivered earlier than the Local Plan's current forecast of 2025-2030 in Local Plan Appendix 7: Forecast of Delivery Timescales for Local Plan Allocations. We anticipate that the site's delivery will span the two periods 2020-2030."</p> <p>Within their Matter 15 statement (M15.02) in response to question 10 the site promoter states "The site is immediately available. It can be delivered early within the plan period."</p> <p>Considered likely to be delivered.</p>	100	0	100				36	36	72	28
BUR002	Land adjoining Lineage Farm on A456, Burford	<p>Greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Considered likely to be delivered within the timescales identified.</p> <p>Resolution to Grant Planning Application (23/02796/FUL) for 40 dwellings on the site.</p>	40	0	40			25	15		40	0

Proposed Site Allocation Reference	Address	Suitability	Availability	Achievability	Viability
BUR004	Land adjoining Boraston Drive on A456, Burford	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Large greenfield site. Site promoters Regulation 19 Representation (A0118) indicates intention to comply with policy requirements and deliver the site. Site promoters Regulation 18 Response (extract provided as Appendix 3 of the Viability Topic Paper) states "Having regard to the proposed policy requirements for BUR004, including the mix of dwellings, the requirement to provide affordable housing and self-build homes, and the site specific factors (such as de-culverting the watercourse and addressing potential site contamination), we can confirm that the site is viable and deliverable. There is known market interest in the site due to Burford and Tenbury Wells being attractive and popular locations for home buyers. Finally, we also confirm that there are no known significant abnormal costs associated with developing the site." No known impediments to the achievability or viability of the site.
CHK002	Land north of The Crescent, Clee Hill	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.
LUD056	Former Coach Depot & Land at Fishmore Road, Ludlow	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Phase 1: Outline and Reserved Matters Applications (16/03096/OUT & 19/02060/REM) granted for 71 dwellings. Subsequent Planning Applications (19/05374/FUL & 20/01326/FUL) reposition the approved plots and result in a net increase of 7 plots. Development is ongoing. Phase 2: Outline Planning Application (23/03716/OUT) pending decision with a resolution to grant for 9 dwellings.	Phase 1: Outline and Reserved Matters Applications (16/03096/OUT & 19/02060/REM) granted for 71 dwellings. Subsequent Planning Applications (19/05374/FUL & 20/01326/FUL) reposition the approved plots and result in a net increase of 7 plots. Development is ongoing. Phase 2: Outline Planning Application (23/03716/OUT) pending decision with a resolution to grant for 9 dwellings.
LUD057	Former Depot, Riddings Road, Ludlow	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Small brownfield site. Existing buildings are potentially suitable for conversion. Site promoter has confirmed its viability and deliverability (Appendix 29 of the Viability Topic Paper). No known impediments to the achievability or viability of the site.
HHH001 & HHH014	Land adjacent to the Primary School and The Grove, Hodnet	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Greenfield site. Site promoter correspondence (Appendix 20 of the Viability Topic Paper) states "We also confirm that in terms of viability then there are no current concerns or anticipated challenges taking into account all aspects of the sites and also relying on current market evidence." No known impediments to the achievability or viability of the site.

Proposed Site Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
BUR004	Land adjoining Boraston Drive on A456, Burford	<p>Large greenfield site. The site is considered suitable, available, achievable and viable.</p> <p>Site promoters Regulation 18 Response (extract provided as Appendix 3 of the Viability Topic Paper) indicates intention to bring the site forward early in the proposed Plan period. The site is considered likely to be delivered.</p> <p>Within their Matter 16 & Matter 25 statements (M16.02 – paragraph 2.21; M25 – paragraphs 2.1 and 2.3) the site promoter Lone Star Land has confirmed “Having regard for the progress made towards an application, we believe that the published trajectory is now likely to underestimate the contribution of the site, particularly with delivery in the initial Plan Period. We can confirm that submission of an outline application is imminent. From the grant of Outline permission, we anticipate 1 year for approval of Reserved Matters and conditions, followed by 9 months for sales. Whilst the first year of delivery may be lower, we anticipate annual delivery of 40-50 dwellings per annum. Assuming timely approval of the applications, we consider the below trajectory is deliverable...”</p>	100	0	100				20	40	60	40

Proposed Site Allocation Reference	Address	Suitability	Availability	Achievability	Viability
HKW009	Land at School Bank Road, Hinstock	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Greenfield site. Site promoters correspondence (Appendix 24 of the Viability Topic Paper) states "Yes the site is viable, against the requirements in the Reg. 19 draft local plan. The owners are in discussion with the Tenant farmer, and there is no reason to suggest the site is not deliverable."
MDR006	Land adjoining Adderley Road, Market Drayton	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review. Site promoters Regulation 19 Representation (A0073) states "The site is controlled by SLG, and is considered to be deliverable in the first 5 years of the plan period."	Site promoters Regulation 19 Representation (A0073) states "SLG has undertaken an internal development appraisal of the site allowing for a policy compliant level of affordable housing, and it is considered to be viable. The site is greenfield and there are no known constraints on the land that would affect delivery. Relevant technical matters have been considered and are addressed within the technical reports as described above. The site is considered to be available and suitable for development in the short term, subject to achieving planning permission." It also states "Therefore, to conclude, these representations demonstrate that the allocation of the site is justified, and the site is deliverable in the next 5 years with no technical constraints." No known impediments to the achievability or viability of the site.
MDR012	Land to the east of Maer Lane and north of the A53, Market Drayton	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Site promoters Regulation 19 Representation (A0378) states "Our client offers full support for the proposed housing allocations off Maer Lane (MDR012 and MDR034), which we consider to be suitable, available and deliverable, early in the Plan period." The site will contribute towards aspirations for a new marina at Market Drayton through provision of improved pedestrian and cycle access to the existing canal towpath and any potential future marina.
MDR034	Land west of Maer Lane and north of the A53, Market Drayton	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Site promoters Regulation 19 Representation (A0378) states "Our client offers full support for the proposed housing allocations off Maer Lane (MDR012 and MDR034), which we consider to be suitable, available and deliverable, early in the Plan period." The site will contribute towards aspirations for a new marina at Market Drayton through provision of improved pedestrian and cycle access to the existing canal towpath and any potential future marina.

Proposed Site Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
HKW009	Land at School Bank Road, Hinstock	Greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Considered likely to be delivered within the timescales identified.	35	0	35						0	35
MDR006	Land adjoining Adderley Road, Market Drayton	Greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Site promoters Regulation 19 Representation (A0073) states "The site is controlled by SLG, and is considered to be deliverable in the first 5 years of the plan period." Planning Application (22/05309/FUL) refused on the site, but demonstrates developer interest in the site. It is known that developer interest remains in the site. Within their Matter 17 statement (M17.05 – paragraph 2.13) the site promoter SLG confirm that "The applicant is currently considering whether to appeal against the recently refused application. If an appeal is not submitted, then the site will be the subject of a further full planning application in the short term." They also stipulate in para 2.30 that "As the recent full planning application demonstrates, the site is being actively progressed and is deliverable within the next 5 years. We agree with the timescales set out in the Five Year Supply Statement (GC47) which indicates that first completions will take place in 2025/26." Considered likely to be delivered.	125	0	125			25	25	25	75	50
MDR012	Land to the east of Maer Lane and north of the A53, Market Drayton	Greenfield site with no known fundamental planning issues. The site is considered suitable, available, achievable and viable. Site promoters Regulation 19 Representation (A0073) indicates an intention for early delivery within the proposed Plan period. Considered likely to be delivered.	70	0	70						0	70
MDR034	Land west of Maer Lane and north of the A53, Market Drayton	Greenfield site. The site is considered suitable, available, achievable and viable. Site promoters Regulation 19 Representation (A0073) indicates an intention for early delivery within the proposed Plan period. Considered likely to be delivered.	120	0	120						0	120

Proposed Site Allocation Reference	Address	Suitability	Availability	Achievability	Viability
MDR039 & MDR043	Land at Longford Turning, Market Drayton	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review. Site promoters Regulation 18 Response (extract provided as Appendix 4 of the Viability Topic Paper) states "We agree that the delivery assumptions set out in Appendix 7 are correct."	Greenfield site. Site promoters Regulation 18 Response (extract provided as Appendix 4 of the Viability Topic Paper) states "As promoters of this site, working with the landowners, Gladman support this allocation. We can confirm that the site is viable and deliverable having regard to the policy requirements identified within the Regulation 18: Pre-Submission Draft Shropshire Local Plan. We agree that the delivery assumptions set out in Appendix 7 are correct. Please view our detailed representations for further comments on this proposed site allocation." The site will contribute towards aspirations for the relocation of sports facilities through delivery of sufficient improvements to the pedestrian, cycle and vehicle accessibility into the proposed relocation site. Considered there is sufficient viability to undertake necessary infrastructure contributions.
MIN018	Land west of A488, Minsterley	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.
PON008, PON017 & PON030	Land at Minsterley Road, Pontesbury	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review. PON008 represents the largest component of the site and it is anticipated that access will be formed through it. The site promoters correspondence (Appendix 2 of the Viability Topic Paper) confirms that delivery timescale assumptions in the draft Shropshire Local Plan are correct. It is anticipated that PON017 and PON030 will follow on as subsequent phases of development.	The site is comparable to a development typology considered viable within the Whole Plan Viability Assessment undertaken to inform the draft Shropshire Local Plan. No known impediments to the achievability or viability of the site.

Proposed Site Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
MDR039 & MDR043	Land at Longford Turning, Market Drayton	Greenfield site considered. The site is considered suitable, available, achievable and viable. Site promoters Regulation 18 Response (extract provided as Appendix 4 of the Viability Topic Paper) states "We agree that the delivery assumptions set out in Appendix 7 are correct." Planning Application (23/00089/OUT) refused on the site, but demonstrates developer interest in the site. It is known that developer interest remains in the site. Within their Matter 17 statement (M17.02 – para 1.1.22) the promoter states "As a broad matter of principle, Gladman is in a position to prepare and submit a planning application; and secure planning permission quickly. The site is available and deliverable and has the potential to deliver a significant number of dwellings within a 5 year period." Considered likely to be delivered within the timescales identified.	120	0	120			25	25	25	75	45
MIN018	Land west of A488, Minsterley	Greenfield site. The site is considered suitable, available, achievable and viable. Within their Matter 18 statement (M18.02) in response to question 10 the landowner has confirmed "The site is immediately available and in a sustainable location in a Community Hub settlement. There are a number of developers interested in purchasing the site, but discussions remain confidential until the allocation has been secured. It is anticipated that delivery of the site would be early within the plan period." Considered likely to be delivered within the timescales identified. Known developer interest in the site.	20	0	20				20		20	0
PON008, PON017 & PON030	Land at Minsterley Road, Pontesbury	Greenfield site. The site is considered suitable, available, achievable and viable. PON008 represents the largest component of the site and it is anticipated that access will be formed through it. The site promoters correspondence (Appendix 2 of the Viability Topic Paper) confirms that delivery timescale assumptions in the draft Shropshire Local Plan are correct. Planning Permission (21/03660/FUL) has been granted for 38 dwellings on the PON008 component of the site and development has recently completed. It is anticipated that PON017 and PON030 will follow on as subsequent phases of development. Planning Application (22/05722/FUL) withdrawn on PON030, which demonstrates developer interest in this site. Considered likely to be delivered.	2	0	2			2			2	0

CES005	Land adjoining The Vicarage on A458, Cressage	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Site promoters Regulation 19 Representation (A0041) states "Proposed allocation CES005 is highly deliverable and viable." No known impediments to the achievability or viability of the site.
CES006	The Eagles public house on A458, Cressage	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review. Planning Permission (21/02078/FUL) granted for the conversion of the former Public House to 2 dwellings. Construction of dwellings on the wider site is expected to follow on as phase 2 of this development.	Small brownfield site. Site promoter correspondence (Appendix 5 of the Viability Topic Paper) states "The site as a whole is viable as it is developable and deliverable. The phasing of the development is currently focused on the conversion of the former public house, which already has extant permission for the conversion to one dwelling. Research suggests it may be necessary to deliver two dwellings from the conversion. This is because the building has been listed and to achieve a high quality and economically viable conversion may require the development of an additional dwelling. The car park to the former public house is developable and deliverable in accordance with the proposed site guidelines and policies of the emerging Development Plan, the phasing of this part of the site will be determined against the emerging policies of the Development Plan which support the redevelopment of the site."

Proposed Site Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
CES005	Land adjoining The Vicarage on A458, Cressage	Greenfield site. The site is considered suitable, available, achievable and viable. The site promoters Regulation 19 Representation (A0041) indicates an intention for early delivery within the proposed Plan period. Planning Application (21/01022/OUT) refused on the site, demonstrates developer interest in the site. Within their Matter 19 Statement (M19.08) the landowner confirmed in response to question 9 that "We can confirm that the site will be delivered within the early part of the plan period should the allocation of the site progress. The site offers community benefits in the form of a suitable mix of housing, quality public open space, traffic calming and good vehicular and pedestrian connections,"	60	0	60						0	60
CES006	The Eagles public house on A458, Cressage	Small brownfield site. The site is considered suitable, available, achievable and viable. Planning Permission (21/02078/FUL) granted for the conversion of the former Public House to two dwellings. Planning Application (23/00525/OUT) refused for 4 dwellings on the remainder of the site, which demonstrates developer interest in this site. It is anticipated that construction of dwellings on the wider site is expected to follow on as a phase 2 development, following conversion of the former Public House (as phase 1). Considered likely to be delivered within the timescales identified. Site promoter correspondence (Appendix 5 of the Viability Topic Paper) states "The site as a whole is viable as it is developable and deliverable. The phasing of the development is currently focused on the conversion of the former public house, which already has extant permission for the conversion to one dwelling. Research suggests it may be necessary to deliver two dwellings from the conversion. This is because the building has been listed and to achieve a high quality and economically viable conversion may require the development of an additional dwelling. The car park to the former public house is developable and deliverable in accordance with the proposed site guidelines and policies of the emerging Development Plan, the phasing of this part of the site will be determined against the emerging policies of the Development Plan which support the redevelopment of the site."	2	0	2					2	2	0

MUW012VAR	Land adjoining the Primary School and Hunters Gate, Much Wenlock	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Site promoters Regulation 19 Representation (A0370) states "At this stage we have carried out a massing exercise and can confirm that the site can accommodate a maximum of 120 dwellings together with the required roundabout and drainage infrastructure. We have also commissioned all of the various reports necessary to support a planning application and will be bringing forward the application in 2021 to demonstrate commitment to delivery of the site. The Estate are committed to delivering a high quality, beautiful development which will be in keeping with the surrounding landscape and local vernacular. There will be a requirement for natural open space within the development and it is envisaged that the current planted boundary to the site will need to be displaced and replaced with compensatory planting on the new site boundary. It is proposed that the development will deliver a good mix of housing including fulfilling the policy requirement to build 20% of the overall housing numbers as affordable dwelling. The development will deliver a Community Infrastructure Levy (CIL) contribution of £59.64 per square metre of build and the development overall could generate an overall CIL receipt somewhere in the region of £900,000 to spend on local projects. The Estate are not seeking to reduce either of these contributions on viability grounds." The representation also states "We note and accept the development guidelines set by the Council..." Considered there is sufficient viability to undertake necessary infrastructure improvements.
GWR009	Land west of Agnes Hunt Memorial Bungalows, Gobowen	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Correspondence from site promoter (Appendix 9 of the Viability Topic Paper) states "I confirm that the site, reference GWR009 would be available and deliverable for future development in line with our earlier submission". No known impediments to the achievability or viability of the site.
KCK009	Land north of Church Lane, Knockin	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Greenfield site. Site promoters Regulation 19 Representation (A0394) states: "KCK009 is deliverable" it also states "Bidwells on behalf of Bradford Estates has held pre-application discussions with Shropshire Council under reference PREAPP/19/00137 and we are keen to facilitate delivery as soon as the planning process allows it." No known impediments to the achievability or viability of the site.

No known impediments to the achievability or viability of the site.
SHR060, SHR158 & SHR161	Land between Mytton Oak Road and Hanwood Road, Shrewsbury	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Large greenfield site. Site promoters Regulation 19 Representation (A0356) states: "CEG is an experienced national strategic land promoter with a proven track record of delivering major sustainable urban extensions. There are no abnormal costs or technical constraints that would render the development of the site unviable or undeliverable. If necessary, CEG will submit its own detailed site-specific viability assessment in support of the draft allocation at the appropriate time, however we continue to question some of the broadbrush assumptions and conclusions reached in the Council's current evidence base on viability. CEG would once again welcome further engagement with the Council on this. In respect of deliverability, CEG is fully committed to preparing a masterplan, submitting a planning application and bringing forward the site for development as soon as possible. Some early discussions with housebuilders have taken place to date, and it is expected that a significant proportion of the site will be brought forward early in the plan period." No known impediments to the achievability or viability of the site.

SHR173	Land west of Ellesmere Road, Shrewsbury	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review.	Large greenfield site. Site promoters Regulation 19 Representation (A0608) states "To conclude, Barwood Land can confirm that the Site is viable, available and achievable, and is expected to deliver housing in accordance with the policy requirements identified within the 'Regulation 18: Pre-Submission Draft Shropshire Local Plan'." No known impediments to the achievability or viability of the site.
Clive Barracks, Tern Hill (BNT002)	Clive Barracks, Tern Hill	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site identified through proportionate and robust site assessment process undertaken to inform the draft Shropshire Local Plan.	Site proactively promoted through the Local Plan Review. It is understood that the sites current occupiers will be relocated and the site released for development in 2025.	Large part brownfield and part greenfield site. It is considered that the draft Policy allows for sufficient flexiability to respond to any site specific viability issues relating to affordable housing, where demonstrated through clear evidence at the Planning Application stage. The site is therefore considered achievable and viable.

Proposed Site Allocation Reference	Address	Summary	Net Dwellings	Net Completions	Net Outstanding	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
SHR173	Land west of Ellesmere Road, Shrewsbury	<p>Large greenfield site. The site is considered suitable, available, achievable and viable. Considered likely to be delivered.</p> <p>A statement of common ground (SoCG012) has been agreed between the Council and the site promoter. This specifies at paragraph 5.6 that "The Promoter proposes an indicative trajectory for the delivery of the proposed site allocation on the land west of Ellesmere Road as follows:</p> <ul style="list-style-type: none"> • Outline Planning Permission granted - 2024 • Site Sale, Reserved Matters Approvals and Discharge of Conditions - 2025 • Lead-in and 50 dwellings completed – 2026 • 100 dwellings completed – 2027 (target NWRR opening year) • 100 dwellings completed – 2028 (plus delivery of Local Centre) • 100 dwellings completed – 2029 • 100 dwellings completed – 2030" <p>Within paragraph 5.4 of the SoCG it is specified that "It is agreed in principle between the Parties that 150 dwellings of the 450 dwellings allocated to be delivered on the Site could be delivered prior to the NWRR being operational without having a severe impact on the highway network..." The Council has proposed a main modification to positively respond to this.</p> <p>Planning Application (22/01432/OUT) pending consideration on the site. This demonstrates developer interest.</p>	450	0	450			50	100	100	250	200
Clive Barracks, Tern Hill (BNT002)	Clive Barracks, Tern Hill	<p>Large part brownfield and part greenfield site. The site is considered suitable, will be made available for development is 2025, achievable and viable.</p> <p>A series of statements of common ground (SoCG04, SoCG04a & SoCG04b) between Shropshire Council and the site promoter. Within SoCG04b it is agreed that "the disposal date for the site has now been announced as 2030. DIO remains committed to the delivery of Clive Barracks. Whilst it is recognised that there has been delay to the vacation date, the DIO can confirm that the works associated with the relocation of the 1st Royal Irish Regiment, from Clive Barracks, are well advanced and closure works are likely to begin in 2028 with site disposal in 2030." This also includes agreement of the delivery schedule for the site, which involves submission of an outline application in 27/28-28/29; site closure works in 28/29-29/30; disposal in 29/30-30/31; and delivery of development from 31/32 onwards. It also includes agreement of delivery rates (a cautious 25dpa for the first two years and 50dpa thereafter).</p> <p>As such it is considered to represent a developable site.</p>	750	0	750						0	750

Appendix G. Strategic Land Availability Assessment (SLAA) Sites

SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
ALB003	Caravan storage, Station Road, Albrighton	The site is suitable for residential development, subject to appropriate management of any physical, heritage and environmental constraints present. For instance provision of an appropriate access to the site and management of the sites relationship with the railway line (e.g. noise). Furthermore the site is located within proximity of several TPO's therefore development is subject to an assessment of impact on this/these protected tree(s) in order to demonstrate how it/they can be safeguarded. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The site is also in proximity of one or more listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.	Shropshire Council Officers understand that the site is likely to become available for the relevant use, but the site is currently occupied (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
BIS016	Field adj. Blunden Hall, Brampton Road, Bishop's Castle	The site is within a settlement boundary and so suitable for development in principle. Any proposed development design and layout should complement the adjacent employment allocation. The site lies within 300m of a Conservation Area and several Listed Buildings. Development is subject to an assessment of impact on the significance of the setting of these heritage assets Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. Effort should be made to retain mature trees and hedgerows on the site.	Shropshire Council Officers have confidence that the site is owned by a willing landowner and/or developer; it is available to develop now; there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
BKL001	Field opposite the Junior School, Bucknell	<p>The site is within the development boundary so development is acceptable in policy terms. Suitability is subject to appropriate management of any physical, heritage or environmental constraints present. For instance the site is in proximity to the River Redlake Wildlife Site, therefore development is subject to an assessment of the impact on this locally designated site. Where this assessment shows a significant and unavoidable adverse effect, there will be a need to consider whether the social and economic benefits of development outweigh the harm. The site is also within 300m of a Scheduled Monument, a Conservation Area and one or more Listed Buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development.</p>	<p>Shropshire Council Officers have investigated the availability of this site, but it remains unclear as to whether the site is available for this form of development. Therefore information gathered for the purpose of this study is unable to confirm that the site is available for this form of development.</p>	<p>For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.</p>
BKL002	The Old Farm, Bucknell	<p>The site is within the development boundary so development is acceptable in principle subject to material considerations. However, part of the site is within the River Redlake Wildlife Site, consequently development of this element of the site and an appropriate buffer is likely to lead to a significant adverse effect on one or more locally designated site(s) and as such is contrary to policy, therefore this part of the site is unsuitable for development. Additionally, part of the site is also within Flood Zones 2 and/or 3, therefore this element of the site would only be considered appropriate if it is considered necessary (through the sequential and/or exception test); the risk can be mitigated; and it will not increase risk elsewhere. The suitability of the remainder of the site is subject to appropriate management of any physical, heritage and environmental constraints present. For instance part of the site is within and the remainder is in proximity of a Conservation Area. The site is also within proximity of a Scheduled Monument and one or more listed buildings, therefore development of this site is subject to a heritage impact assessment. Where this shows that substantial harm to or a total loss of significance of the designated heritage asset is likely then development needs to meet the tests set out in paragraph 133 of the NPPF. If less than substantial harm is likely, then this should be weighed against the public benefits of development. This site's suitability is therefore dependent on the necessary assessment(s) being undertaken and the conclusions reached. The element of the site that is not within a Local Wildlife Site is in proximity of this site, therefore development is subject to an assessment of the impact on this locally designated site. Where this assessment shows a significant and unavoidable adverse effect, there will be a need to consider whether the social and economic benefits of development outweigh the harm.</p>	<p>The site was represented during the SAMDev Site Allocations process for a relevant use, and it is understood that it is owned by a willing landowner and/or developer; it is available to develop now; and there are no legal or ownership problems which could limit development. SLAA Site Reference	Address	Summary	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
DNP005	Land north-west of South Road, Ditton Priors	The site is considered available, achievable and viable (subject to any further necessary viability assessment). The site is within the development boundary so development is acceptable in policy terms, subject to material considerations and management of any physical, heritage or environmental constraints present (informed by input from relevant service areas and infrastructure providers) and the outcome of a visual impact and landscape sensitivity assessment.						20	20
BRO034	Adj. Brook Cottage, 4 Bridge Rd, Broseley	The site is considered available; achievable; and viable (subject to any further necessary viability assessment). The site is also considered suitable for development subject to appropriate assessment and management of any impact on the physical; environmental; or heritage constraints to the site. Specifically potential impacts on environmental and heritage assets. If suitable mitigation of this identified constraint were possible, the sites development potential would also depend on suitable management of any other physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						6	0

SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
CST008	Land at Woodbank House, Church Stretton	<p>The site is within the Church Stretton development boundary so the principle of development is accepted. The site is located within the Shropshire Hills AONB. Major development of this site is subject to an assessment of impact on the special qualities of this AONB. Where this assessment shows a significant and unavoidable adverse effect, there will be a need to consider whether the public interest of the development outweighs the harm, in line with paragraph 116 of NPPF. However, as the site is also within a settlement development boundary it is considered suitable for development in principle. The site is within 500m of an Ancient Woodland site. Development is subject to an assessment of impact on this natural asset. Where deterioration or loss is likely, national policy states that the need for, and benefits of, the development should clearly outweigh the loss if development is to be acceptable. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The site is within 250m of a Wildlife Site. Development is subject to an assessment of the impact on this locally designated site. Where this assessment shows a significant and unavoidable adverse effect, there will be a need to consider whether the social and economic benefits of development outweigh the harm. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The site is adjacent to a Conservation Area. Development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.</p>	<p>The site was represented during the SAMDev Site Allocations process for a relevant use, and it is understood that it is owned by a willing landowner and/or developer; it is available to develop now; and there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p>	<p>For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.</p>
CRA001	Abattoir site, Craven Arms	<p>A small part of the site are within Flood Zones 2 and/or 3. The area of the site outside this zone has potential for residential development (following the relocation of the existing abattoir) as it is located within the Craven Arms settlement boundary. This potential is subject to the appropriate management of any physical, heritage and environmental constraints present. For instance the site is within 300m of a Conservation Area and several Listed Buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.</p>	<p>The site was represented during the SAMDev Site Allocations process for a relevant use, but the site is currently occupied (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future. Specifically there is a stated aspiration within the current Development Plan to relocate the abattoir to the proposed Newington Food Park. This relocation will allow the redevelopment of the existing site, which will act as a catalyst for the redevelopment of the wider area.</p>	<p>For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.</p>
CRA029	Garage Corvedale Rd, Craven Arms	<p>The site is a brownfield site within the development boundary. Suitable in principle for residential development. A positively designed scheme could enhance the site and its setting, which is a gateway into the town. Therefore the site is suitable subject to appropriate management of any physical, heritage and environmental constraints present. For instance the site is brownfield and in use as a garage, therefore there are potential contamination issues. The site is also in proximity of a conservation area and listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.</p>	<p>Shropshire Council Officers have confidence that the site is owned by a willing landowner and/or developer; it is available to develop now; there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p>	<p>For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. SLAA Site Reference	Address	Summary	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
CST008	Land at Woodbank House, Church Stretton	The site is considered suitable; available; achievable; and viable (subject to any further necessary viability assessment) for residential development. Suitability of the site for residential development is subject to appropriate management of the physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and where appropriate the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						6	0
CRA001	Abattoir site, Craven Arms	The site is considered suitable; available (following the relocation of the existing abattoir); achievable; and viable (subject to any further necessary viability assessment) for residential development. Suitability of the site for residential development is subject to appropriate assessment and management of the impact on physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and where appropriate the outcome of a visual impact and landscape sensitivity assessment. Such constraints include: Flood Zones 2 and/or 3; proximity to a Conservation Area and to several Listed Buildings. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						0	26

SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
HNN021	Off Netherton Lane, Highley	<p>The site is located within the Highley development boundary. As such the principle of residential development on the site is established. Suitability is subject to appropriate management of the physical, heritage and environmental constraints. For instance part of the site was subject to previous quarrying and subsequent landfill uses, this will require due consideration. The site is adjacent to existing commercial units. The relationship between these units and any residential development on this site will require due consideration. The site contains and is in proximity of trees subject to TPO protection, development is subject to an assessment of impact on this/these protected tree(s) in order to demonstrate how it/they can be safeguarded. The site is also in proximity of a conservation area and a number of listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development.</p> <p>Approximately 40% of the site granted Planning Permission (17/05813/FUL) for a business unit. As such site capacity has been reduced.</p>	<p>The site has been the subject of either a refused or withdrawn Planning Application for a relevant use, but it is understood that there remains development interest; the site is owned by a willing landowner and/or developer; it is available to develop now; and there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p> <p>Approximately 40% of the site granted Planning Permission (17/05813/FUL) for a business unit. SLAA Site Reference	Address	Summary	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
HNN021	Off Netherton Lane, Highley	The site is considered suitable; available; achievable; and viable (subject to any further necessary viability assessment) for residential development. Suitability of the site for residential development is subject to appropriate management of the physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and where appropriate the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site. Approximately 40% of the site granted Planning Permission (17/05813/FUL) for a business unit. As such site capacity has been reduced.						0	10
LUD005	21 New Street, Ludlow	The site is considered suitable; likely to become available; achievable; and viable (subject to any further necessary viability assessment) for residential development. Suitability of the site for residential development is subject to appropriate management of the physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and where appropriate the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						5	0
LUD022	Morris Bufton Galdeford, Ludlow	The site is considered viable and achievable (subject to any further necessary viability assessment). Its availability is unknown. Where necessary, this will be informed by further discussions with landowners and/or their representatives. Furthermore, the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site. The site is currently suitable for development as it is located within the development boundary where the principle of development is accepted subject to management of any physical, heritage and environmental constraints. These include the implications of any loss of employment; and the site's proximity to a SSSI, a Scheduled Monument, a Conservation Area and several Listed Buildings. Additionally, If the consent for a retail unit on part of the site is implemented, this will need to be excluded from the developable area.						0	41

SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
<p>ONY005</p>	<p>Land at the Quarry</p>	<p>The site is located adjacent to an existing Community Hub, however within Onibury open market residential development is limited to infilling, groups of houses and conversions on suitable sites within the village. The housing guideline for Onibury is around 25 dwellings. As a former quarry, the sites topography may be challenging, contamination may be present and ground investigations are likely to be required.</p> <p>The site is also located within the AONB, therefore any major development of this site is subject to an assessment of impact on the special qualities of this AONB. Where this assessment shows a significant and unavoidable adverse effect, there will be a need to consider whether the public interest of the development outweighs the harm, in line with paragraph 116 of NPPF. This site’s suitability is therefore dependent on the necessary assessment(s) being undertaken and the conclusions reached.</p> <p>The site is also in proximity of a conservation area and one or more listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development.</p> <p>The ability to provide an appropriate access is subject to highway approval.</p> <p>Subject to these factors, a suitably sized scheme, appropriate consideration of the identified housing guideline for the settlement, and any other material considerations, including any other physical, heritage and environmental constraints present, the site may currently be suitable for development.</p> <p>However, Onibury has not been identified as a proposed Strategic/Principal/Key Centre or Community Hub within the Local Plan Review and the site size threshold for inclusion within the SLAA is likely to exceed those which are considered appropriate within any future Community Clusters proposed as part of the Local Plan Review. As such under this policy approach open market residential development on the site would be contrary to policy.</p>	<p>The site was represented during the SAMDev Site Allocations process for a relevant use, and it is understood that it is owned by a willing landowner and/or developer; it is available to develop now; and there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p>	<p>For a scheme to be ‘viable’ it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer.</p> <p>Shropshire’s geographical location and rural character make it a desirable place to live. SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
MDR003	Haulage Yard, Newcastle Road, Market Drayton	The site is considered suitable for open market residential development. Suitability is also subject to appropriate management of any physical, heritage and environmental constraints present. For instance the site is within 300m of a Conservation Area, accordingly the impact of any proposed development will need to be appropriately assessed and considered. Notwithstanding this there are few other constraints and the site is considered suitable for development.	Shropshire Council Officers understand that the site is likely to become available for the relevant use, but the site is currently occupied (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
MDR004	Cricket Club, Betton Road, Market Drayton	The site falls within the development boundary of Market Drayton. As such it is a suitable location for residential development. Although the site is included within the cricket club open space, the site itself does not include any green space (it is a brownfield site) although it does include the club house, any development would therefore need to demonstrate that this facility is no longer required or include a replacement facility. Any development on the site would need to address any physical, heritage and environmental constraints present. For instance, the site is within 300m of a Conservation Area and a number of listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.	The site was subject to a series of applications for residential development in 2006 and 2008. Shropshire Council Officers have confidence that the site is owned by a willing landowner and/or developer; it is available to develop now; there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
MDR026	Pet Market, Shrewsbury Road, Market Drayton	The site is considered suitable for residential development. Suitability is subject to appropriate management of any physical, heritage and environmental constraints present.	The site has been the subject of either a refused or withdrawn Planning Application for a relevant use, but it is understood that there remains development interest; the site is owned by a willing landowner and/or developer; it is available to develop now; and there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
SKH001	Land at Rosehill Road, Stoke Heath	<p>This brownfield site is located within proximity of an existing Community Hub, within Stoke Heath open market development will be delivered upon the allocated site together with limited infilling, groups of houses and conversions on suitable sites within Stoke Heath. This particular site has also been identified within the emerging Neighbourhood Plan as an appropriate location for residential development.</p> <p>Suitability of the site for open market residential development is subject to appropriate management of the physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and where appropriate the outcome of a visual impact and landscape sensitivity assessment. Particularly contamination. Planning Permission (17/04913/OUT / 20/00256/REM) granted for 1 dwelling on part of the site.</p>	<p>The site has been submitted through the 'call for sites' for a relevant use, and this submission confirms that the site is available now; that there is a willing landowner/developer; and no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p> <p>Planning Permission (17/04913/OUT / 20/00256/REM) granted for 1 dwelling on part of the site.</p>	<p>For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability.</p> <p>Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.</p> <p>Planning Permission (17/04913/OUT / 20/00256/REM) granted for 1 dwelling on part of the site.</p>
MUW001	Smithfield Works, Much Wenlock	<p>Complies with current policy and is also a brownfield site. Within 500m of a SSSI so development is subject to an assessment of impact on the notified special interest features of the SSSI. Where an adverse impact is likely, there will be a need to consider whether the benefits outweigh both the harm to the special features and any broader impacts on the national network of SSSIs. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The site boundary is also within 30m of a Tree Preservation Order. Development is subject to an assessment of impact on this protected tree in order to demonstrate how it can be safeguarded. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. Site is also within 300m of a Conservation Area and several Listed Buildings. Development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.</p>	<p>Previously submitted for consideration within the SHLAA; SAMDev Plan; and the Much Wenlock Neighbourhood Plan. Shropshire Council Officers understand that the site is likely to become available for the relevant use, but the site is currently occupied (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.</p>	<p>For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability.</p> <p>Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.</p>
KCK001	The Old Post Office, Knockin	<p>The site is located within the development boundary for Knockin. As such development by infilling and conversions of buildings may be acceptable subject to material considerations. Knockin also represents a proposed Community Hub. Material considerations include suitable consideration and management of any physical, heritage and environmental constraints. For instance the ability of the current access to serve the redevelopment of the site is subject to highway approval. The site is within a conservation area and in proximity of a number of listed buildings and a scheduled monument, therefore development of this site is subject to a heritage impact assessment. Where this shows that substantial harm to or a total loss of significance of the designated heritage asset is likely then development needs to meet the tests set out in paragraph 133 of the NPPF. If less than substantial harm is likely, then this should be weighed against the public benefits of development. This site's suitability is therefore dependent on the necessary assessment(s) being undertaken and the conclusions reached. The site is also in proximity of trees subject to TPO protection, therefore development is subject to an assessment of impact on this/these protected tree(s) in order to demonstrate how it/they can be safeguarded.</p>	<p>The site was represented during the SAMDev Site Allocations process for a relevant use, and it is understood that it is owned by a willing landowner and/or developer; it is available to develop now; and there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p>	<p>For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. OSW002	Health Centre/ Adult Training Centre, Victoria Rd, Oswestry	Suitable location subject to appropriate design and necessary assessments. Specifically the site is located within proximity of a scheduled monument, conservation area and one or more listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The site is within proximity of a number of TPO's, therefore development is subject to an assessment of impact on these protected trees in order to demonstrate how they can be safeguarded. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.	Shropshire Council Officers understand that the site is likely to become available for the relevant use, but the site is currently occupied (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
OSW005	Roy Evans Garage, Oak Street, Oswestry	The site is in a suitable location for residential development, subject to appropriate assessment and management of physical, heritage and environmental factors. Specifically, the site is located within a conservation area, therefore development of this site is subject to a heritage impact assessment. Where this shows that substantial harm to or a total loss of significance of the designated heritage asset is likely then development needs to meet the tests set out in paragraph 133 of the NPPF. If less than substantial harm is likely, then this should be weighed against the public benefits of development. This site's suitability is therefore dependent on the necessary assessment(s) being undertaken and the conclusions reached. The site is also in proximity of a scheduled monument; one or more listed buildings; and a registered park/garden, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.	The site has previously been submitted for inclusion within the SHLAA. Shropshire Council Officers understand that the site is likely to become available for the relevant use, but the site is currently occupied (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
SMH002	Darjeeling, School Lane, St Martins	Brownfield site within development boundary. Therefore the site is considered suitable in principle for residential development. Suitability is subject to appropriate management of any physical, heritage or environmental constraints present. For instance comments will be required from highway department regarding highway access. Planning Permissions (19/02458/FUL and 21/01012/FUL) granted for 2 dwellings and 1 dwelling (post 31st March 2022) respectively on parts of the site.	The site has been the subject of a lapsed Planning Application for a relevant use (granted 2011). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future. Planning Permissions (19/02458/FUL and 21/01012/FUL) granted for 2 dwellings and 1 dwelling (post 31st March 2022) respectively on parts of the site.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken. Planning Permissions (19/02458/FUL and 21/01012/FUL) granted for 2 dwellings and 1 dwelling (post 31st March 2022) respectively on parts of the site.
SHF004	Land to the rear of Jaspers, Shrewsbury Road, Shifnal	The site is located on the edge of the town centre of Shifnal, within its development boundary. As such it is a suitable location for open market residential development. However, this excludes a small portion of the site, along its eastern boundary which is located within flood zones 2 and/or 3. Suitability is subject to appropriate management of any physical, heritage and environmental constraints present. For instance the site is located within a conservation area, therefore development of this site is subject to a heritage impact assessment. Where this shows that substantial harm to or a total loss of significance of this/these designated heritage asset(s) is likely then development needs to meet the tests set out in paragraph 133 of the NPPF. If less than substantial harm is likely, then this should be weighed against the public benefits of development. This site's suitability is therefore dependent on the necessary assessment(s) being undertaken and the conclusions reached. Additionally the site is adjacent to a TPO, therefore development is subject to an assessment of impact on this/these protected tree(s) in order to demonstrate how it/they can be safeguarded. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The site is also in proximity of a number of listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The ability to provide an appropriate access is subject to highway approval.	This site has previously been the subject of Planning Applications (most recently refused in 2005) for the demolition of existing buildings (beyond the identified site area) and erection of 28 dwellings. Shropshire Council Officers understand that the site is likely to become available for the relevant use, but the site is currently occupied (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
SHF016	St Peter's Youth Club, Bridgnorth Road, Shifnal	The site is located within the development boundary and a predominantly residential area therefore the principle of open market residential uses on the site is accepted. Suitability is subject to appropriate management of any physical, heritage and environmental constraints present. For instance the site is in proximity of a conservation area and several listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development.	The site has been submitted through the 'call for sites' for a relevant use, and this submission confirms that the site is not currently available but will become so in the future; that there is a willing landowner/developer; and no legal or ownership problems which could limit development beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.

SLAA Site Reference	Address	Summary	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
SMH002	Darjeeling, School Lane, St Martins	The site is considered suitable; available; achievable; and viable (subject to any further necessary viability assessment) for residential development. Suitability of the site for residential development is subject to appropriate management of the physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and where appropriate the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site. Planning Permissions (19/02458/FUL and 21/01012/FUL) granted for 2 dwellings and 1 dwelling respectively on parts of the site, which have subsequently been completed. These Planning Permissions have been reflected when identifying the potential remaining capacity of the site as included within the Shropshire five year housing land supply.						5	0
SHF004	Land to the rear of Jaspers, Shrewsbury Road, Shifnal	The site is considered likely to become available, viable and achievable. Where necessary, this will be informed by further discussions with landowners and/or their representatives; and any further necessary viability assessment work. The site is however considered suitable for residential development (excluding the small portion of the site located within flood zones 2 and/or 3), subject to assessment and management of the physical; environmental; or heritage constraints. Such as the ability to access the site and its location within a conservation area. If suitable mitigation of this identified constraint were possible, the sites development potential would also depend on appropriate changes to policies affecting this location; suitable management of any other physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers); and the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						0	5
SHF016	St Peter's Youth Club, Bridgnorth Road, Shifnal	The site is considered suitable; available; achievable; and viable (subject to any further necessary viability assessment) for residential development. Suitability of the site for residential development is subject to appropriate management of the physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and where appropriate the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						0	12

SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
SHF027	Garage off Bradford Street, Shifnal	<p>The site is located within the Shifnal development boundary and its frontage is within the town centre. As a result there would be an expectation that ground floor uses may be more appropriate for retail and town centre uses. Open market residential uses on upper floors would be supported. The site does have potential for open market residential on the ground floor subject to demonstration of compliance with current policy (that residential uses on the ground floor would support the regeneration of the town centre) or long term potential subject to appropriate policy changes. Suitability is also subject to and management of any physical, heritage and environmental constraints. For instance as a former garage site investigation and remediation or any contamination would be required. The site is within proximity of a conservation area and a number of listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.</p>	<p>The site has been submitted through the 'call for sites' for a relevant use, and this submission confirms that the site is available now; that there is a willing landowner/developer; and no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p>	<p>The site has been promoted during the 2017 Call for Sites for residential development. For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.</p>
SHF028	27 Shrewsbury Road, adjacent to St Mary's Church, Shifnal	<p>The site is located within the Shifnal development boundary and near the town centre, therefore the site is suitable for open market residential development subject to appropriate management of any physical, heritage and environmental constraints. For instance the ability to access the site is subject to highway approval. The site is located within a conservation area, therefore development of this site is subject to a heritage impact assessment. Where this shows that substantial harm to or a total loss of significance of the designated heritage asset is likely then development needs to meet the tests set out in paragraph 133 of the NPPF. If less than substantial harm is likely, then this should be weighed against the public benefits of development. This site's suitability is therefore dependent on the necessary assessment(s) being undertaken and the conclusions reached. The site is also within proximity of a listed building, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The buildings fronting onto Shrewsbury Road may have heritage value.</p>	<p>The site has been submitted through the 'call for sites' for a relevant use, and this submission confirms that the site is available now; that there is a willing landowner/developer; and no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p>	<p>The site has been promoted during the 2017 Call for Sites for residential development. SLAA Site Reference	Address	Summary	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
SHF027	Garage off Bradford Street, Shifnal	The site is considered suitable, available; achievable; and viable (subject to any further necessary viability assessment) for open market residential development. Suitability of the site for open market residential development above the ground floor is subject to appropriate management of the physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers); and where appropriate the outcome of a visual impact and landscape sensitivity assessment. Suitability of open market residential development on the ground floor is also subject to demonstration that this would support the regeneration of the town centre. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						0	7
SHF028	27 Shrewsbury Road, adjacent to St Mary's Church, Shifnal	The site is considered available; achievable; and viable (subject to any further necessary viability assessment). The site is also considered suitable for development subject to appropriate assessment and management of any impact on the physical; environmental; or heritage constraints to the site. Specifically the site is located within a conservation area. If suitable mitigation of this identified constraint were possible, the sites development potential would also depend on suitable management of any other physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers); and the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						0	5
BNP014	Newtown Garage, Baschurch	The site is considered available; achievable; and viable (subject to any further necessary viability assessment). The site is also considered suitable for development subject to appropriate assessment and management of any impact on the physical; environmental; or heritage constraints to the site. Specifically part of the site is within a Conservation Area and the site is within 300m of one or more Listed Buildings. If the assessment shows no adverse effect or suitable mitigation were possible, the sites development potential would also depend on suitable management of any other physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						0	7

SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
SHR011	Land at the Elms, Belvidere, Shrewsbury	As a part brownfield and part greenfield site within the development boundary, the site is considered suitable in principle for open market residential development. However, suitability is subject to appropriate management of any physical, heritage and environmental constraints present. For instance the need to provide an alternative location for the Scout Group. The ability to provide an appropriate access into the site is subject to highway approval. The site is within proximity of 'The Elms' Grade 2 Listed Building and a Conservation Area, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. The site also contains and is in proximity to TPO's, therefore development is subject to an assessment of impact on the protected tree(s) on/in proximity of the site in order to demonstrate how they can be safeguarded.	Shropshire Council Officers understand that the site is likely to become available for the relevant use, but the site is currently occupied by a Scout Group with 25 yr. lease so site will only become available during this time if an alternative location can be found for them (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
SHR014	Site at New Zealand House, Abbey Foregate, Shrewsbury	The portion of the site located within flood zones 2 and/or 3 is unsuitable for development. This portion of site would only be considered appropriate if it is considered necessary (through the sequential and/or exception test); the risk can be mitigated; and it will not increase risk elsewhere. The remainder of the site is suitable for development subject to appropriate management of any physical, heritage and environmental constraints present. For instance the suitability of the access to serve the redevelopment of the site is subject to highway approval. The site is located within a Conservation Area and adjacent to a Grade 2 listed building, therefore development of this site is subject to a heritage impact assessment. Where this shows that substantial harm to or a total loss of significance of the designated heritage asset is likely then development needs to meet the tests set out in paragraph 133 of the NPPF. If less than substantial harm is likely, then this should be weighed against the public benefits of development. This site's suitability is therefore dependent on the necessary assessment(s) being undertaken and the conclusions reached. Furthermore, the site contains and is within proximity of TPO's. Consequently development is subject to an assessment of impact on the protected tree(s) on/in proximity of the site in order to demonstrate how they can be safeguarded. The site is also within 100m of a Local Nature Reserve so development is subject to an assessment of the impact on this locally designated site. Where this assessment shows a significant and unavoidable adverse effect, there will be a need to consider whether the social and economic benefits of development outweigh the harm.	Shropshire Council Officers understand that the site is likely to become available for the relevant use, but the site is currently occupied (the user has not confirmed that they can/will vacate the site to allow its development, but their lease will expire at a specified point in the future or there is confidence that they will vacate the site) and/or it is subject to some other form of constraint (time limited or can be removed). It is however understood that it is owned by a willing landowner and/or developer; and that there are no legal or ownership problems which could limit development, beyond those which mean the site is not immediately available. Therefore information gathered for the purposes of this study suggests that there is confidence in the site becoming available for development in the future.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
SHR015	Land at Whitehall, Shrewsbury	Site is located in a longstanding established residential area and would be suitable for open market residential development subject to assessment and management of physical, environmental and/or heritage constraints. For instance the site contains and is in proximity of a listed buildings; it is also located in a conservation area; and proximity of a scheduled monument, therefore development of this site is subject to a heritage impact assessment. Where this shows that substantial harm to or a total loss of significance of the designated heritage asset is likely then development needs to meet the tests set out in paragraph 133 of the NPPF. If less than substantial harm is likely, then this should be weighed against the public benefits of development. This site's suitability is therefore dependent on the necessary assessment(s) being undertaken and the conclusions reached.	Site is currently occupied as a medical / office facility with associated car parking. However, the site has been submitted through the 'call for sites' for a relevant use, and this submission confirms that the site is available now; that there is a willing landowner/developer; and no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.

SLAA Site Reference	Address	Summary	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
SHR011	Land at the Elms, Belvidere, Shrewsbury	<p>The site is considered available; achievable; and viable (subject to any further necessary viability assessment). The site is also considered suitable for development subject to appropriate assessment and management of any impact on the physical; environmental; or heritage constraints to the site. Specifically TPO's on site, impact on Grade 2 Listed Building 'The Elms' and satisfactory access.</p> <p>If suitable mitigation of the identified constraints were possible, the sites development potential would also depend on suitable management of any other physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and the outcome of a visual impact and landscape sensitivity assessment. SHR014	Site at New Zealand House, Abbey Foregate, Shrewsbury	<p>The site is considered viable and achievable (subject to any further necessary viability assessment). It is not currently considered to be available, but is it considered that it is likely to become available in the future. Where necessary, this will be informed by further discussions with landowners; their representatives; and any further necessary viability assessment work. The element of the site located outside flood zones 2 and/or 3 is considered suitable for development subject to appropriate assessment and management of any impact on the physical; environmental; or heritage constraints to the site. Specifically heritage assists and satisfactory access. If suitable mitigation of this identified constraint were possible, the sites development potential would also depend on suitable management of any other physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers) and the outcome of a visual impact and landscape sensitivity assessment. The element of the site located in flood zones 2 and/or 3 would only be considered appropriate if it is considered necessary (through the sequential and/or exception test); the risk can be mitigated; and it will not increase risk elsewhere.</p> <p>Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.</p>						0	14
SHR015	Land at Whitehall, Shrewsbury	<p>The site is considered likely to become available; achievable; and viable (subject to any further necessary viability assessment). The site is also considered suitable for development subject to appropriate assessment and management of any impact on the physical; environmental; or heritage constraints to the site.</p> <p>Planning Application 24/03897/FUL pending consideration for 25 dwellings on the site. The Design & Access Statement which accompanies this Planning Application details the extensive pre-application discussion that has occurred on the site. The applicant is a developer (Shropshire Homes).</p> <p>Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.</p>						25	0

SLAA Site Reference	Address	Suitability	Availability	Achievability/Viability
SHR165	Land to north-west of Hazeldine Way, Shrewsbury	Greenfield site within development boundary, so no in principle restrictions. However, approximately 66% of the site is located within flood zone 2 and/or 3, therefore this element of the site would only be considered appropriate if it is considered necessary (through the sequential and/or exception test); the risk can be mitigated; and it will not increase risk elsewhere. The remainder of the site may be suitable for development subject to confirmation of the ability to provide an appropriate access to and into the site (which is currently unclear), any proposed access is subject to highway approval. Suitability is also subject to appropriate management of any physical, heritage and environmental constraints present. For instance, the site is adjacent to Reabrook Valley Local Nature Reserve, therefore development is subject to an assessment of the impact on this locally designated site. Where this assessment shows a significant and unavoidable adverse effect, there will be a need to consider whether the social and economic benefits of development outweigh the harm. The site is also in proximity of a conservation area, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development.	The site has been submitted through the 'call for sites' for a relevant use, and this submission confirms that the site is available now; that there is a willing landowner/developer; and no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.	The site has been promoted during the 2017 Call for Sites for residential development. For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
SHR211	Land at Hollydene, Shrewsbury	The site is located within the development boundary. Therefore open market residential development is suitable in principle. Suitability is subject to appropriate management of any physical, heritage and environmental constraints present. For instance the ability to provide an appropriate access is subject to highway approval. The site is in proximity to trees subject to TPO protection, therefore development is subject to an assessment of impact on this/these protected tree(s) in order to demonstrate how it/they can be safeguarded.	The site has been submitted through the 'call for sites' for a relevant use, and this submission confirms that the site is available now; that there is a willing landowner/developer; and no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.
WEM018	Land behind 18-34 Aston Road, Wem	Suitable location subject to appropriate design and management of the physical, heritage and environmental constraints present. For instance the ability to provide an appropriate access to and into the site is subject to highway approval. Access to services and facilities in the town may be constrained by highway and traffic issues associated with the rail crossing, this will require due consideration. The site is within proximity of a conservation Area and one or more listed buildings, therefore development is subject to an assessment of impact on the significance of the setting of these heritage assets. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.	The site was represented during the SAMDev Site Allocations process for a relevant use, and it is understood that it is owned by a willing landowner and/or developer; it is available to develop now; and there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.	For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. WHT005	Land at Sherrymill Hill, Whitchurch	<p>The site is located within the development boundary, and so residential development is in line with policy. However, approximately 40% of the site is located within flood zone 2, therefore this part of the site would only be considered appropriate if it is considered necessary (through the sequential and/or exception test); the risk can be mitigated; and it will not increase risk elsewhere. The remainder of the site is considered suitable for development, subject to appropriate management of any physical, heritage and environmental constraints present. For instance the site is within 250m of a Wildlife Site, and so development is subject to an assessment of the impact on this locally designated site. Where this assessment shows a significant and unavoidable adverse effect, there will be a need to consider whether the social and economic benefits of development outweigh the harm. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The site is also within 30m of multiple Veteran Trees/ trees protected by a Tree Preservation Order. Development is subject to an assessment of impact on these protected trees in order to demonstrate how they can be safeguarded. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding. The site is within 300m of a Conservation Zone. Development is subject to an assessment of impact on the significance of the setting of this heritage asset. Where this shows that substantial harm or a total loss of significance is likely then development must meet a number of tests set out in national policy. If less than substantial harm is likely, then this should be weighed against the public benefits of development. However, the site is considered suitable for development in relation to this matter, subject to acceptable safeguarding.</p>	<p>The site was represented during the SAMDev Site Allocations process for a relevant use, and it is understood that it is owned by a willing landowner and/or developer; it is available to develop now; and there are no legal or ownership problems which could limit development. Therefore information gathered for the purposes of this study suggests that there is confidence in the site being available and will come forward for development.</p>	<p>For a scheme to be 'viable' it must make financial sense to both the developer and the landowner, within the constraints imposed by the market; planning policies; and any required infrastructure obligations. It is within this context that the NPPF defines a viable scheme as one that provides competitive returns to a willing landowner and developer. Shropshire's geographical location and rural character make it a desirable place to live. Like many other Counties, Shropshire has a diverse housing market. However, despite this within Shropshire residential development is generally considered viable, unless there are site specific issues which impact upon viability. Consequently, residential development upon any site is generally considered achievable and viable unless there are site specific issues evident. However, to support this conclusion on the achievability and viability of development, a separate viability assessment will be undertaken.</p>

SLAA Site Reference	Address	Summary	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Post Five Year Period
WHT005	Land at Sherrymill Hill, Whitchurch	The site is considered available, viable and achievable (subject to any further necessary viability assessment). The site is located within the development boundary, and so residential development is in line with policy. However, approximately 40% of the site is located within flood zone 2, therefore this part of the site would only be considered appropriate if it is considered necessary (through the sequential and/or exception test); the risk can be mitigated; and it will not increase risk elsewhere. The remainder of the site is considered suitable for development, subject to appropriate management of any physical, heritage and environmental constraints present (informed by input from relevant service areas and infrastructure providers); and the outcome of a visual impact and landscape sensitivity assessment. Furthermore the associated settlement offers a range of services and facilities suitable to meet the needs of potential occupiers of the site.						0	9
