01588672268	PCO1 WISTANSTOW CRAVEN ARMS	SY7 8DQ	K6	Y	N	11	0	Wistanstow	N/A			Resident objects. Mobile signals are poor and/or sporadic. One of the local farmers told me yesterday that they are concerned about the lack of landlines once fibre broadband is fully rolled out. The phone box in the village may be the only way people can call emergency services in a crisis if the fibre network goes down. It is imperative that it stays. It is opposite the primary school and a reassurance to residents many of whom are elderly	SC minded to object to removal on grounds of concerns about mobile signal coverage

01743860228	PCO PCO1 LONGDEN SHREWSBURY	SY5 8EX	K6	N	N	1	0	Longden	2020 Longden Parish Council would strongly object to the removal of the BT public telephone located at Longden. The kiosk is located in a relatively isolated rural area with poor mobile coverage so has a value as an emergency service, particularly for tourists. The Parish Council wishes the line to remain operational even if usage is relatively low. The kiosk is a traditional K6 design and stands in a prominent position in the village centre. It is a heritage asset which the Council wishes to retain, even in the event the line cannot be retained. Whilst every effort should be made to retain operational use, the Council would consider adoption of the kiosk should that prove impossible.

01746716609	PCO WORFIELD P O MAIN STREET WORFIELD BRIDGNORTH	WV15 5LF	K6	Y	Y	6	0	Worfield	N/A	PC Object as concerns have been raised that this particular area of the parish often has telephone lines go down and has a very poor signal for mobile phones, and as the area is an area of high-flood risk, this payphone is used as a lifeline to contact emergency services to assist.		Further detail being collected in regard to flood alerts	SC support PC in objecting to removal of this payphone on the grounds given.
