Shropshire Council Children's Services: Provider engagement events

Working together for every child and young person in care: local homes, lasting relationships, better futures.

Overview

We are inviting providers to meet with us, to

- share the challenges we are facing in meeting the needs of our children and young people
- agree new ways of working, to hear what could be improved
- develop and co-design changes.

We will also share our offer to you across our edge of care services, virtual school, SEND system, emotional wellbeing services, in-house children's homes and fostering teams.

The purpose of these events is to develop our partnership working, ensuring we can work together in the best way to improve outcomes for our children and young people.

We will be running three events for children's home, fostering and supported accommodation providers:
