Date:	21st September 2026

Shropshire Council Highways Comments Re Appellant's Cycle Provision within Albrighton Note (ID6)

Further to the Note (ID6) submitted by the Appellant, we would make the following observations.

The proposed additional cycle provision and level of contributions is acceptable to Shropshire Council. In terms of the level of contribution, this seems appropriate to take into account the cost of the stands, plus additional costs which will include:

- * The preparation of the drawings to be submitted to the contractor, to include declaration of any utilities within the area of working, this is typically undertaken by Shropshire Council consultants WSP.
- * Staff time to raise works order for the installation of any stands.
- * The cost of any permits to carry out work on the highway.
- * Cost of any traffic management or footway closures whilst installation is being Undertaken.
- * Staff time to monitor works and arrange for payment.
