KEY

N = new bird ringed

S = subsequent encounter of previously ringed bird

Age codes:

2 = Exact year of hatching unknown.

3 = Bird hatched in the current calendar year (CY)

4 = Exact year of hatching unknown but not hatched in the current CY

5 = Bird hatched in the last CY

6 = Exact year of hatching unknown but not hatched in the current or previous CY

KEY

N = new bird ringed

S = subsequent encounter of previously ringed bird

Age codes:

2 = Exact year of hatching unknown.

3 = Bird hatched in the current calendar year (CY)

4 = Exact year of hatching unknown but not hatched in the current CY

5 = Bird hatched in the last CY

6 = Exact year of hatching unknown but not hatched in the current or previous CY

Maps of ringing locations on Church Farm

Source: British Trust for Ornithology (BTO) Demography Online

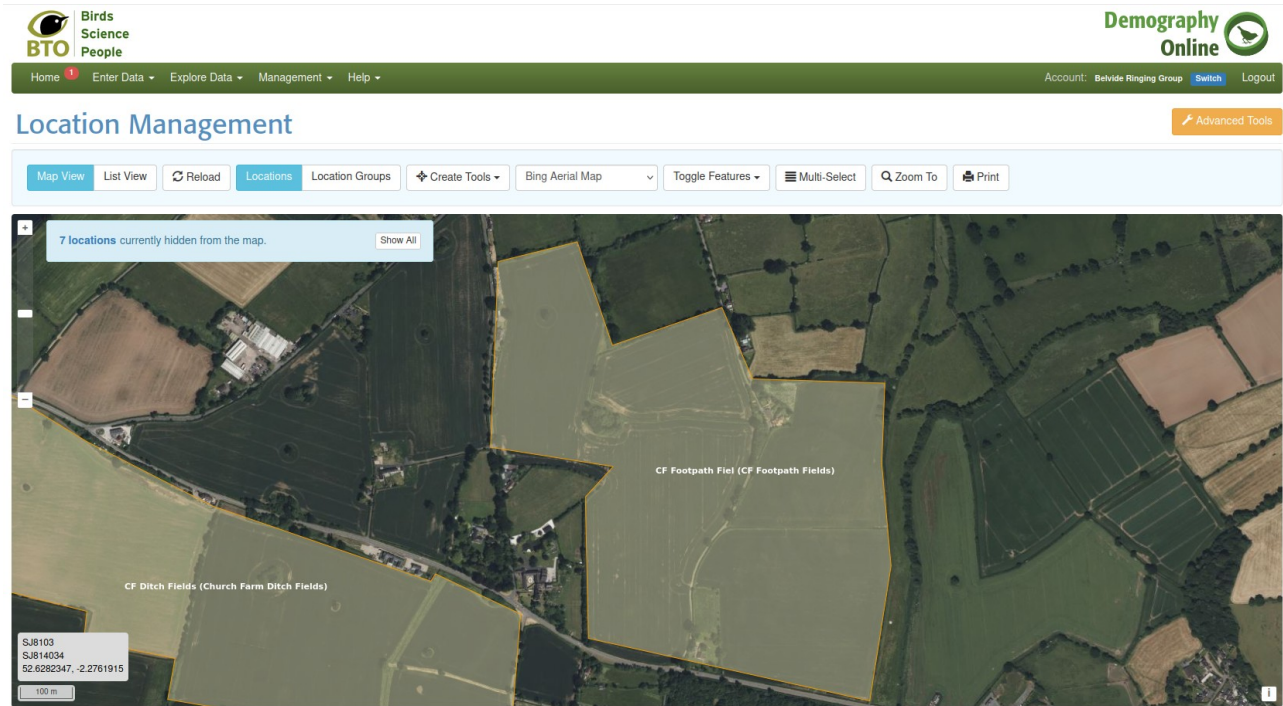

Figure 1: Location of ringing area “Footpath Fields” on Church Farm.

The Footpath Fields lie to the west and east of New House Lane (NHL). The western most edge borders Patshull Rd and the southern most edge the A464. The area to the west of NHL lies within development area.

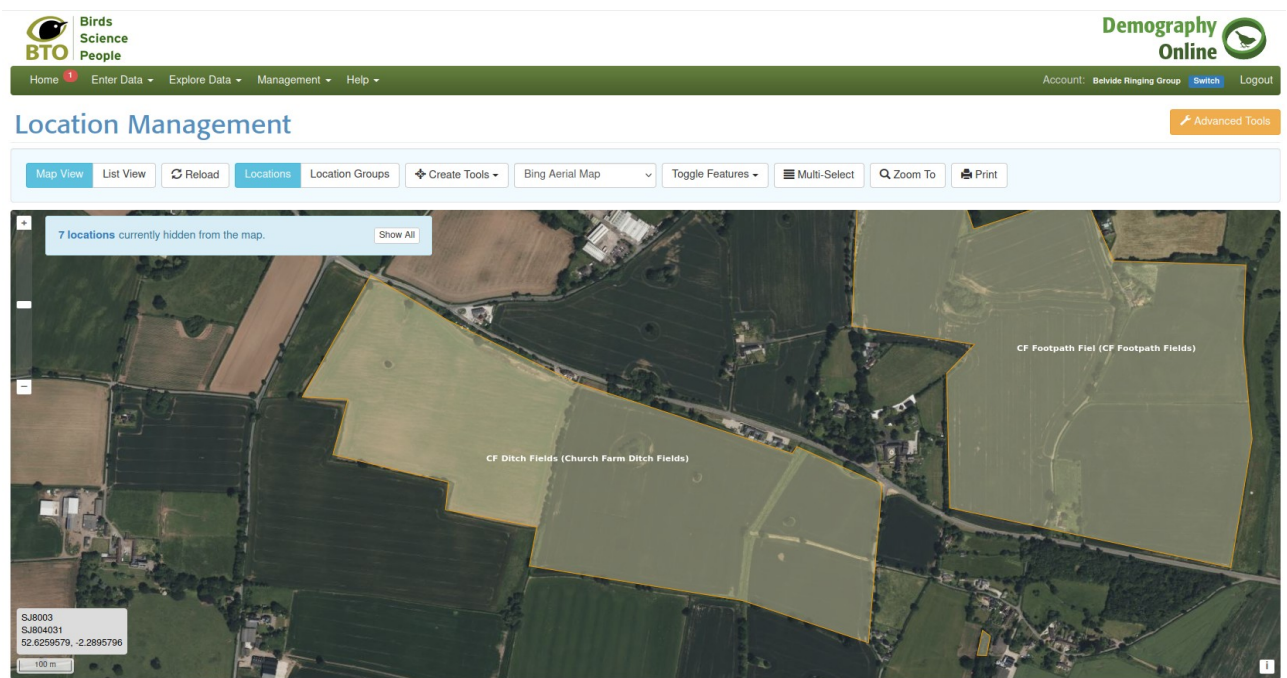

Figure 2: Location of ringing area “Ditch Fields” on Church Farm.
The Ditch Fields lie to the south of the A464. The northern edge runs adjacent to the A464.

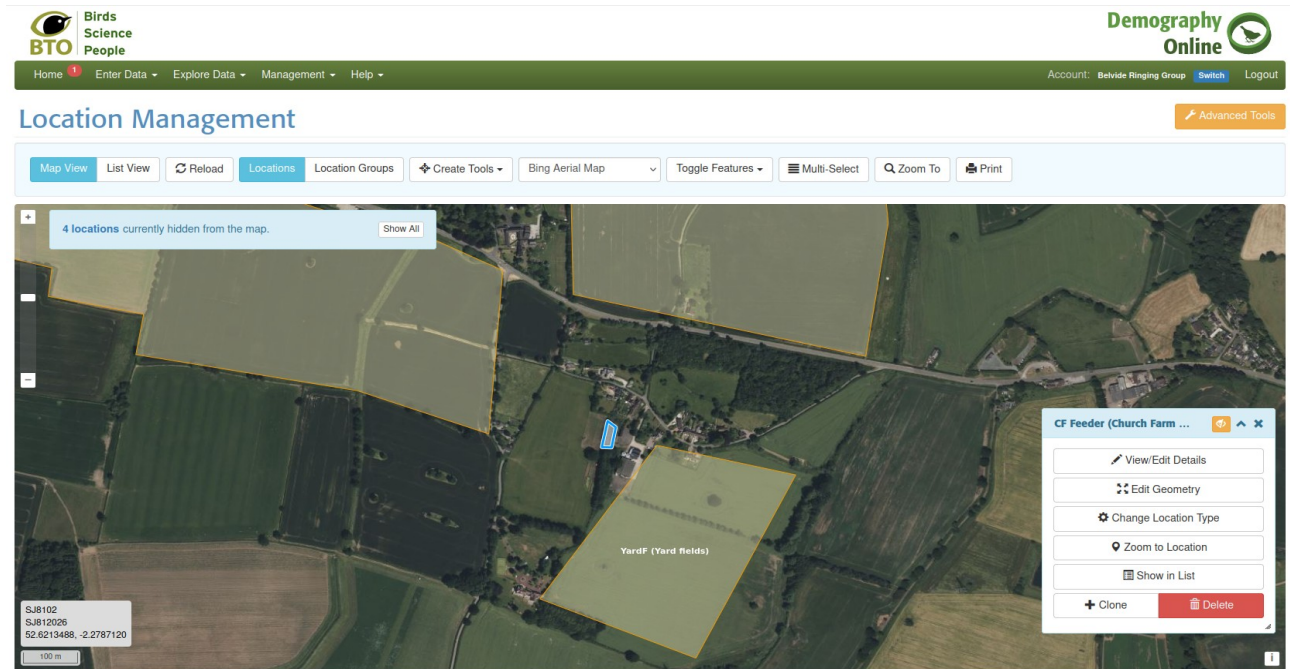

Figure 3: Location of ringing areas “Yard Fields” and “Church Farm Feeder” (blue area) on Church Farm.
The Yard Fields and Church Farm Feeder areas lie just to the south of Church Lane and are accessed through the yard of Church Farm.

Limitations of nocturnal ringing data collected:

- 1.1 The number of ringing sessions for Skylark and Woodcock were limited by: number of ringers available, weather conditions and moon phase.
- 1.2 Ringing data does not represent the total number of birds present on any given occasion. In accordance with BTO protocol, ringers did not attempt to trap any birds roosting in flocks.
- 1.3 No nocturnal ringing sessions took place over the winter of 2025/2026 as there was no site access.
